### **Massachusetts Marine Sanitation Device Standard; Receipt of Petition**

Notice is hereby given that a petition has been received from the State of Massachusetts requesting a determination of the Regional Administrator, U.S. Environmental Protection Agency, pursuant to section 312(f)(3) of Public Law 92-500 as amended by Public Law 95-217 and Public Law 100-4, that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the Stage Harbor Complex in the Town of Chatham, County of Barnstable, State of Massachusetts, to qualify as a "No Discharge Area" (NDA). The areas covered under this petition include Stage Harbor, north of a line drawn across its mouth at Nantucket Sound, and the following tributaries: Little Mill Pond, Mill Pond, Mitchell River, Oyster Pond River, and Oyster Pond. The

proposed area encompasses approximately 620 acres of water-sheet in the southeast corner of the town of Chatham. The latitude and longitude defining the boundaries of the Stage Harbor Complex are—Oyster Pond 41° 40' 84"—069° 57' 84", Little Mill Pond 41° 40' 6"—069° 57' 3", and at the mouth of Stage Harbor 41° 39' 4"—069° 59' 0".

The State of Massachusetts has certified that there will be two public pump-out facilities located within the proposed area to service vessels in Stage Harbor Complex. The facilities will be self-service with oversight provided by personnel from the Chatham Harbormaster's office.

The pump-out located at the town owned Old Mill Boatyard (OMBY) facility is a shore based facility and has a 60 gallon per cycle capacity with discharge to a 2,000 gallon tight tank. The facility provides access for vessels up to 50 feet in length and a draft of 5 feet at mean low water. This facility is available daily from June 20 through Labor Day from approximately 0900 to 1700 (9:00 a.m.—5:00 p.m.). During the spring and fall the pump-out facility is available by contacting the Harbormaster's office by phone (508) 945-5185 or VHF radio channel 16.

The portable pump-out located at Stage Harbor Marine (SHM) has a 225 gallon capacity and is discharged directly to the Chatham Water Pollution Control Facility for treatment. This unit is accessible via the fuel dock which provides services to vessels of up to 40 feet and draft of 6 feet at mean low water. The facility is available daily from Memorial Day to Thanksgiving from 0800 to 1630 (8:00 am—4:30 pm). The pump-out may also be available from Thanksgiving to mid-December and mid-April to Memorial Day, Monday to Friday from 0800 to 1630 (8:00 am—4:30 pm). These dates are variable due to winter weather. Stage Harbor Marine can be contacted at (508) 945-1860 or VHF radio channel 9.

In addition to these pump-out facilities, the Stage Harbor Complex area has six on shore toilet facilities. Four are available to the public and two are private and restricted to marina patrons and their guests. The four on shore facilities available to the public are located at the Stage Harbor Road bathing beach, Barn Hill Road Town Landing, and the Old Mill Boatyard, and are open from June 21 to September 1 between the hours of 0800 and 1600 (8:00 am—4:00 pm). The fourth facility at the Stage Harbor Marina is open to the public but privately maintained and is open approximately from May 1 until November.
