SUPPLEMENTARY INFORMATION: The land has been identified as suitable for disposal by the Shoshone-Eureka Resource Management Plan. The land is not needed for any resource program and is not suitable for management by the Bureau or another Federal department or agency.

The land to be sold is difficult and uneconomical for the Bureau to manage. It consists of three parcels, two of which are totally surrounded by patented mining claims owned by the sale proponent. Failure to submit the nonrefundable fee for the mineral estate within the time frame specified by the authorized officer will result in cancellation of the sale.

The segregation shall terminate upon issuance of a patent or other document of conveyance, upon publication in the Federal Register of a termination of segregation, or 270 days from date of this publication, whichever ever occurs first.

The patent, when issued, will contain the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States, Act of August 30, 1890, (43 U.S.C. 945);

2. Geothermal resources;
