[Docket No. EC97-7-000]

Take notice that on November 27, 1996, Atlantic City Electric Company (Atlantic) and Delmarva Power & Light Company (Delmarva) (collectively, "Applicants") tendered for filing an application to merge Atlantic and Delmarva as separate operating subsidiaries of a newly-formed holding company, which will be a registered holding company under the Public Utility Holding Company Act (PUHCA).

Atlantic is currently a subsidiary of Atlantic Energy, Inc., an exempt holding company under PUHCA. Under the terms of an Agreement and Plan of Merger, the common shares of Atlantic Energy and Delmarva will be surrendered and the common shareholders will receive common shares of the newly-formed, as-yet unnamed holding company. Applicants state that the exchange ratios for the common stock were negotiated at arms-length. As part of these negotiations, applicants also agreed that Atlantic Energy shareholders will receive a separately established amount of so-called "Class A" common stock.

Notice is also hereby given that in conjunction with and dependent on approval of the merger, applicants have proposed a "hold-harmless" provision that is stated to ensure that the merger will not increase the rates under any existing FERC-jurisdictional resale agreement throughout the remaining terms of such agreements.

Applicants have filed a joint open-access FERC Order No. 888 transmission tariff, which applicants state would go into effect at the time the merger closes unless superseded by tariffs made effective as part of the ongoing proceedings involving the restructuring of the Pennsylvania-New Jersey-Maryland Interconnection Association.

Applicants submit that the proposed merger, which, for accounting purposes, is treated as an acquisition by Delmarva of Atlantic Energy, is consistent with the public interest as required by Section 203 of the FPA. Applicants, therefore, request that the Commission approve the proposed transaction and merger without the necessity of a hearing.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the construction and operation of the facilities proposed in the Seasonal Service Expansion Project.<sup>1</sup> The total project involves the construction of about 43.6 miles of pipeline, five salt caverns, four brine injection wells, one new compressor station, and additional facilities at an existing compressor station; use of five existing caverns at a storage facility; and hydrostatic testing of existing pipeline for operation at higher pressure. The facilities would be in West Virginia, Pennsylvania, New York, Maryland, and Virginia. (See appendix 1 for location maps of the proposed facilities.)<sup>2</sup> This EA will be used by the Commission in its decision-making process to determine whether an environmental impact statement is necessary and whether to approve the project.

### Summary of the Proposed Projects

CNG Transmission Corporation (CNG) in Docket No. CP96-492-000 ("SSE Project") and Texas Eastern Transmission Corporation (Texas Eastern) in Docket No. CP96-606-000 ("Winternet Project") (together these projects are referred to as the "Seasonal Service Expansion Project") want to expand the capacity of their facilities.<sup>3</sup>

For the SSE Project, CNG proposes facilities to provide 103,000 dekatherms per day (Dth/d) of transmission service and 9.3 billion cubic feet (Bcf) of storage capacity for various customers. CNG seeks authority to:
