

project consists of two 6.22 megawatt (MW) diesel electric generating units and associated facilities that will be constructed immediately adjacent to the existing Majuro Generating Station, on Dalap Island which is part of the Majuro Atoll.

RUS has concluded that the environmental impacts from the proposed project would not be significant and that the proposed action is not a major Federal action significantly affecting the quality of the human environment. Therefore, the preparation of an environmental impact statement is not required.

Lawrence R. Wolfe, Senior Environmental Protection Specialist, USDA Rural Utilities Service, Engineering and Environmental Staff, 1400 Independence Avenue, SW., Stop 1571, Washington, DC 20250-1571, telephone: (202) 720-5093.

SUPPLEMENTARY INFORMATION: Section 161 of the Compact of Free Association (Compact), Public Law 99-239, among the Government of the United States, Marshall Islands, and the Federated States of Micronesia requires Federal agencies shall apply NEPA to their activities under the Compact and its related agreements as if the Marshall Islands and the Federated States of Micronesia were the United States.

RUS, in accordance with its environmental policies and procedures, required that MEC submit a Borrower's Environmental Report (BER) reflecting the potential impacts of the proposed facilities. The BER prepared for MEC by Howard Engineers and Constructors, Ltd. and Earth Technology Corporation includes input from Republic of the Marshall Islands agencies. RUS has adopted the BER as its Environmental Assessment for the project in accordance with 7 CFR 1794.61. RUS has concluded that the BER represents an accurate assessment of the environmental impacts of the project. The proposed project should have no impact on cultural resources, floodplains, wetlands, important farmland, water quality, air quality, and federally listed or proposed for listing threatened or endangered species or their critical habitat.

Alternatives considered to the proposed project included no action, load management, and alternative energy sources. RUS has considered these alternatives and has concluded that by adding new diesel generating units, MEC can accommodate the current and projected load requirements on the Majuro Atoll and provide the

flexibility of maintenance during peak load periods.

Copies of the BER and FONSI are available for review at RUS at the address provided herein; or can be reviewed at or obtained from the offices of MEC, P.O. Box 1430, Majuro, Marshall Islands MH 96960, telephone (692) 625-3507 during normal business hours.

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Addition

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Addition to the procurement list.

SUMMARY: This action adds to the Procurement List a service to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

EFFECTIVE DATE: January 21, 1997.

ADDRESS: Committee for Purchase From People Who Are Blind or Severely Disabled, Crystal Square 3, Suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202-3461.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman, (703) 603-7740.

SUPPLEMENTARY INFORMATION: On October 25, 1996, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice (61 F.R. 55268) of proposed addition to the Procurement List. After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the service and impact of the addition on the current or most recent contractors, the Committee has determined that the service listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small

organizations that will furnish the service to the Government.

2. The action will not have a severe economic impact on current contractors for the service.

3. The action will result in authorizing small entities to furnish the service to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the service proposed for addition to the Procurement List.

Accordingly, the following service is hereby added to the Procurement List: Laundry Service, Yakima Training Center, Yakima, Washington.

This action does not affect current contracts awarded prior to the effective date of this addition or options that may be exercised under those contracts.

E.R. Alley, Jr.,

Deputy Executive Director.

DEPARTMENT OF COMMERCE

International Trade Administration

(A-570-850, A-580-827, and A-583-826)

Initiation of Antidumping Duty Investigations: Collated Roofing Nails From the People's Republic of China, the Republic of Korea, and Taiwan

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: December 20, 1996.

FOR FURTHER INFORMATION CONTACT:

Dorothy Tomaszewski at (202) 482-0631 or Everett Kelly at (202) 482-4194, Import Administration—Room B099, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, DC 20230.

Initiation of Investigations

The Applicable Statute

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 ("the Act") by the Uruguay Round Agreements Act ("URAA").

The Petition

On November 26, 1996, the Department of Commerce ("the Department") received a petition filed in proper form by Paslode Division of Illinois Tool Works Inc. ("petitioner"). The Department received supplemental information to the petition on December 11, 1996, and December 16, 1996.

In accordance with section 732(b) of the Act, petitioner alleges that imports of Collated Roofing Nails ("CR nails") from the People's Republic of China ("PRC"), the Republic of Korea ("Korea"), and Taiwan are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act, and that such imports are materially injuring, or threatening material injury to, an industry in the United States.

The Department finds that petitioner has standing to file the petition because it is an interested party as defined in section 771(9)(C) of the Act.

Scope of Investigations

The products covered by these investigations are CR nails made of steel, having a length of $1\frac{3}{16}$ inch to $1\frac{13}{16}$ inches (or 20.64 to 46.04 millimeters), a head diameter of 0.330 inch to 0.415 inch (or 8.38 to 10.54 millimeters), and a shank diameter of 0.100 inch to 0.125 inch (or 2.54 to 3.18 millimeters), whether or not galvanized, that are collated with two wires.

CR nails within the scope of these investigations are classifiable under the Harmonized Tariff Schedule of the United States ("HTSUS") subheading 7317.00.55.05. Although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope of these investigations is dispositive.

Determination of Industry Support for the Petition

Section 732(b)(1) of the Act requires that petitions be filed on behalf of the domestic industry. In this regard, section 732(c)(4)(A) of the Act requires the Department to determine, prior to the initiation of an investigation, that a minimum percentage of the domestic industry supports the antidumping petition. A petition meets the minimum requirements if the domestic producers or workers who support the petition account for: (1) at least 25 percent of the total production of the domestic like product; and (2) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition.

Section 771(4)(A) of the statute defines the "industry" as the producers of a domestic like product. Thus, to determine whether the petition has the requisite industry support, the statute directs the Department to look to producers and workers who account for production of the domestic like product. The International Trade Commission ("ITC"), which is responsible for determining whether "the domestic industry" has been injured, must also determine what constitutes a domestic like product in order to define the industry. However, while both the Department and the ITC must apply the same statutory definition of domestic like product, they do so for different purposes and pursuant to separate and distinct authority. In addition, the Department's determination is subject to limitations of time and information. Although this may result in different definitions of the like product, such
