Sea Robin Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff

December 18, 1996.

Take notice that on December 13, 1996, Sea Robin Pipeline Company (Sea Robin) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the tariff sheets set forth on Appendix A to the filing, to become effective January 1, 1997.

Sea Robin states that the purpose of this filing is to comply with Commission Order Nos. 582 and 582-A prescribing certain procedural rules governing the form and composition of interstate natural gas pipeline tariffs including, inter alia, that the rates set forth in all natural gas companies' tariffs be stated on a thermal basis. Sea Robin proposes to state all of its rates on a Dekatherm (Dth) basis effective January 1, 1997, since the Commission has approved Dth to be the standard unit for nominations, allocations and invoicing. Accordingly, Sea Robin has changed all references in its Tariff from MMBtu to Dth in addition to stating its reservation charges and calculations for firm service on a Dth basis. These tariff changes do not impact firm shippers' contract quantities (in Mcf) and do not substantively alter the charges shippers pay for transportation service on Sea Robin's system.

In addition, Sea Robin also proposes other clarifications to its Tariff required by Order Nos. 582 and 582-A, such as correction of its title page and revised references to the Commission's Regulations under Part 154 which were changed by the Orders. Sea Robin requests the Commission to grant it all waivers necessary to place these provisions into effect January 1, 1997.
