## National Institutes of Health

### National Library of Medicine (NLM); Opportunity for a Cooperative Research and Development Agreement for Research and Development of Document Imaging and Information Retrieval Software and Systems

**AGENCY:** Lister Hill National Center for Biomedical Communications, NLM, NIH, DHHS.

**ACTION:** Notice.

**SUMMARY:** The Lister Hill National Center for Biomedical Communications (LHNCBC), an R&D division of the National Library of Medicine, seeks a Cooperative Research and Development Agreement (CRADA) with a software company with a reputation in the software research, development and marketing communities, as demonstrated by the quality of its information products, particularly its document imaging and information retrieval software and systems.

The Collaborator must be able to collaborate with NLM staff to produce high quality information products. The Collaborator must have a demonstrated record of success in privately producing and marketing scientific information resources.

The term of the CRADA will be up to five (5) years.

**DATES:** Interested parties should notify this office in writing no later than February 25, 1997. Parties should document their qualifications as identified in selection criteria in this initial submission. Parties will be subsequently selected for developing a formal proposal.

**ADDRESSES:** Inquires and proposals regarding this opportunity should be addressed to William Joseph Cotreau, J.D. (Tel. #301-496-0477, FAX #301-402-2177), Office of Technology Development, National Cancer Institute, Executive Plaza South, Suite 450, 6120 Executive Blvd. MSC 7182, Bethesda, Maryland 20892.

**SUPPLEMENTARY INFORMATION:** A CRADA is the anticipated joint agreement to be entered into by LHNCBC pursuant to the Federal Technology Transfer Act of 1986, as amended by the National Technology Transfer Act (Pub. L. 104-1993 (1996)) and by Executive Order 12591 of October 10, 1987. The Communications Engineering Branch of LHNCBC is presently developing document-imaging systems, called DocView and WILL. DocView is a client-software package, based in the Microsoft Windows environment, designed to handle document images received over the Internet via scanning systems such as Ariel and external client software such as MIME E-mail or Web browsers. WILL is a document-sending system, integrating a scanner, PC, image processing boards, printer, barcode reader, fax, and other equipment. WILL is designed to automate almost all aspects of document production, from retrieval of requests to document delivery, and updating of request status.

Under the present proposal, the goal of the CRADA will be the development of the following technology:

- Development of Macintosh and Unix versions for DocView;
- Development of Netscape® Plug-in modules for Macintosh and Unix versions of DocView;
- Development of WILL for faster document capture, improved user interface, improved scanning abilities, and replacement of the present file management with a more efficient DBMS; and
- Development of an improved document-request interface for WILL.

All necessary existing rights and assets currently held by LHNCBC for the production of identified software will be transferred as needed to the Collaborator.

## Party Contributions

The role of the LHNCBC includes the following:

(1) Provide Collaborator with the DocView and WILL source codes, if and as necessary, and all licenses necessary for the further development of DocView and WILL;

(2) Provide staff, expertise, and materials for the development of DocView software and the WILL system;

(3) Evaluate the work product of Collaborator to ensure progress toward meeting the CRADA goals; and

(4) Provide work space and equipment for production and testing of any document-retrieval software products developed.

The role of the successful Collaborator will include the following:

(1) Provide funding, if and as necessary, in support of production and dissemination of DocView and WILL;

(2) Provide expertise and assistance in the production and marketing of DocView and WILL;

(3) Provide staff, expertise, and materials for the development of DocView and WILL software; and

(4) Provide quality assurance testing, operator training, and user support for any document-manipulation software products resulting from this CRADA.

## Selection Criteria

Proposals submitted for consideration should fully address each of the following qualifications:

(1) Expertise:

A. Demonstrated expertise in developing and producing high quality document imaging software and systems;

B. Demonstrated ability to secure national and international marketing and distribution of software;

C. Demonstrated expertise in overseeing all aspects of product development;

D. Demonstrated intellectual ability to guide development of product line which addresses the requirements of LHNCBC;

E. Demonstrated expertise in serving and supporting a significant client base; and

F. Familiarity with library systems and interlibrary loan and document delivery services.

(2) Reputation: The successful Collaborator must be reorganized in the software industry for:

A. Producing, marketing and supporting quality document imaging software;

B. Indications of high levels of satisfaction by software experts, libraries, document suppliers and

similar entities with the information products and services; and

C. The range of products and services it produces.

(3) Physical Resources:

A. An established headquarters with offices, space, and equipment;

B. Access to the organization during business hours by telephone, mail, e-mail, the Internet, and other evolving technologies; and

C. Sufficient financial and technologies resources to support, at a minimum, the current activities of the CRADA to meet the needs of LHNBCB.

[Docket No. FR-4108-N-02]

#### Loan Guarantee Recovery Fund; Announcement of OMB Approval Number

**AGENCY:** Office of the Assistant Secretary of Community Planning and Development, HUD.

**ACTION:** Announcement of OMB Approval Number.

**SUMMARY:** On September 6, 1996 (61 FR 47404), the Department published in the Federal Register, a regulation authorizing a Loan Guarantee Recovery Fund and the procedures, terms and conditions by which HUD may use the fund to guarantee loans made by financial institutions to nonprofit organizations affected by acts of arson or terrorism pursuant to the Church Arson Prevention Act of 1996. In the "Effective Date" section of the rule, and consistent with the Paperwork Reduction Act of 1995, the September 6, 1996 rule advised the public that the OMB control number when received, would be announced by a separate notice in the Federal Register. The purpose of the notice is to announce the OMB approval number for the information collection requirements in the September 6, 1996 rule.

#### SUPPLEMENTARY INFORMATION:

Accordingly, the OMB Approval Number for the Loan Guarantee Recovery Fund collection requirements established in accordance with the Church Arson Prevention Act of 1996 and set forth in HUD's implementing regulation, published in the Federal Register on September 6, 1996 at 61 47404 is 2506-0159. The approval number expires on March 31, 1997.

Dated: December 22, 1996.
