Title: New Service Reporting Requirements Under Price Cap Regulation.

Estimated Annual Burden: 1280 total annual hours; 20 hours per respondent; 16 respondents.

Description: Price cap carriers filing new service tariffs are subject to a quarterly reporting requirement which commences six months after initiation of new services. The net revenue data report is useful to the public and the Commission in determining the reasonableness of rates for new services. These reports are used to compare actual operating results with projections.

OMB Control No.: 3060-0536.

Expiration Date: 05/31/96.

Title: Rules and Requirements for Telecommunications Relay Services (TRS) Interstate Cost Recovery.

Form No.: FCC Form 431.

Estimated Annual Burden: 46,3000; 9.26 hours per respondent (average); 5000 respondents.

Description: The Americans with Disabilities Act of 1990 requires the Commission to ensure that telecommunications relay services are available, to the extent possible, to individuals with hearing and speech disabilities in the United States. To fulfill this mandate, the Commission adopted rules which require the provision of TRS services, set minimum standards for telecommunications relay services (TRS) providers and establish a shared-funding mechanism for recovering the costs of providing interstate TRS. See 47 CFR Sections 64.601-64.605. FCC Form 431 is used in implementing the shared-funding program for the recovery of interstate TRS relay services costs. All common carriers must contribute to the TRS fund and complete FCC Form 431. The information is used to administer the program. The 1995 TRS Fund Worksheet (FCC Form 431) has been updated to include the new expiration date. Please note that the 1996 edition of the FCC Form 431 is not available for public use.

Description: 47 CFR Part 61, Sections 61.20 - 61.23 contain tariff filing requirements for nondominant common carriers. Section 203 of the Communications Act requires that carriers file schedules indicating the rates, terms, and conditions of their service offerings. The purpose of the filing requirement is so that the Commission, customers, and interested parties can ensure that the service offerings of communications common carriers comply with the requirements of the Communications Act.

OMB Control No.: 3060-0681.

Expiration Date: 02/28/99.

Title: Toll-Free Service Access Codes—CC Docket No. 95-155.

Estimated Annual Burden: 664,070 total annual responses; .166 hours per response (average); 4,000,000 respondents.

Description: In the Notice of Proposed Rulemaking issued in CC Docket No. 95-155, the Commission solicited public comment on how toll free numbers should be reserved, assigned, and used. The NPRM also proposed several information collections to advance the efficient use of toll free numbers, facilitate planning, permit more effective analysis of anticipated number exhaustion and prevent fraud. The entities affected include Responsible Organizations, 800 service providers, third party agents, individuals, and/or the administrator of the SMS/800 database. OMB approved several of the proposed requirements including the proposed recordkeeping, reporting and certification requirements contained in the NPRM.
