

Monitoring Program; and § 258.55, Assessment Monitoring Program.

3. Subpart F—Final Closure—Adopt the criteria in 40 CFR § 258.60, Closure Criteria, pertaining to the time allowed to apply the final cover.

4. Subpart G—Financial Assurance Criteria—The major revision needed in WVDEP's permitting requirements is its adoption of the 40 CFR Part 258 Financial Assurance requirements. This includes § 258.70, Applicability; § 258.71, Financial Assurance for Closure; § 258.72, Financial Assurance for Post-Closure Care; § 258.73, Financial Assurance for Corrective Action, and § 258.74, Allowable Mechanisms. Current WVDEP regulations contain neither the applicability nor scope of the Federal requirements. A statutory change in West Virginia law is needed to implement portions of this Federal criteria.

WVDEP has submitted a schedule indicating that it will commit to complete these above regulatory revisions by September 1, 1996. To allow West Virginia to begin exercising some of the flexibility allowed in States with adequate permit programs, EPA is proposing to approve now those portions of the WVDEP's program not required to need regulatory revision, and which therefore can be implemented prior to September 1996.

EPA reviewed the State's schedule and believes it is reasonable, considering the complexity of the rule changes, number of steps in the State rulemaking process, and the need for legislative action.

Comments are solicited on this tentative determination until April 30, 1996. Copies of WVDEP's application are available for inspection and copying at the locations indicated in the ADDRESSES section of this notice.

EPA Region III will hold a public hearing if, and only if, requested (see DATES section of this notice) on this tentative decision, on April 30, 1996 from 7:00 p.m. to 10:00 pm at the Capital High School in Charleston, West Virginia. Comments can be submitted at the hearing, if held, as transcribed from oral comments presented, or in writing at the time of the hearing.

EPA will consider all written public comments on its tentative determination received during the public comment period, as well as those presented at the public hearing. Issues raised by those comments may be the basis for EPA's reconsideration of this tentative determination of adequacy for WVDEP's program. EPA will make a final decision on whether or not to approve WVDEP's program and will provide notice in the Federal Register. The notice will include a summary of the reasons for the final determination and a response to all major comments.

Section 4005(a) of RCRA provides that citizens may use the citizen suit provisions of Section 7002 of RCRA to enforce the Federal MSWLF criteria in 40 CFR Part 258 independent of any State/Tribal enforcement program. As EPA explained in the preamble to the final MSWLF criteria, EPA expects that any owner or operator complying with provisions in a State/Tribal program approved by EPA should be considered to be in compliance with the Federal Criteria. See 56 FR 50978, 50995 (October 9, 1991).

Compliance With Executive Order 12866

The Office of Management and Budget has exempted this notice from the requirements of Section 6 of Executive Order 12866.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that according to EPA Headquarters this tentative approval will not have a significant economic impact on a substantial number of small entities. It does not impose any new burdens on small entities. This proposed notice, therefore, does not require a regulatory flexibility analysis.

Authority: This notice is issued under the authority of Sections 2002, 4005 and 4010(c) of the Solid Waste Disposal Act, as amended; 42 U.S.C. 6912, 6945 and 6949(a)(c).

Dated: February 28, 1996.

III. Loss of Active Ingredients

Unless the requests for cancellation are withdrawn, one pesticide active ingredients will no longer appear in any registered products. Those who are concerned about the potential loss of this active ingredient for pesticidal use are encouraged to work directly with the registrant to explore the possibility of their withdrawing the request for cancellation. The active ingredient is listed in the following Table 3, with the EPA Company and CAS Number.

CAS No.	Chemical Name	EPA Company No.
129-67-9	Endothall, disodium salt	007401

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to James A. Hollins, at the address given above, postmarked before June 6, 1996. This written withdrawal of the request for cancellation will apply only to the applicable 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1 year after the date the cancellation request was received. This policy is in accordance with the Agency's statement of policy as prescribed in Federal Register No. 123, Vol. 56, dated June 26, 1991. Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a data call-in. In all cases, product-specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product(s). Exceptions to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in Special Review actions, or where the Agency has identified significant potential risk concerns associated with a particular chemical.
