

proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The estimated burden hours should be 2 hours per year for each facility to prepare the annual report. An for the seven sources the total burden is 14 hours per year for the industry.

Notification of Stored Pesticides With Suspended or Canceled Registrations

Affected entities: This action affects any producer or exporter of pesticides, registrant of a pesticide, applicant for registration of a pesticide, applicant for or holder of an experimental use permit, commercial applicator, any person who distributes or sells any pesticide, or who possesses any pesticide which has had its registration suspended or canceled.

Title: Notification of Stored Pesticides with Canceled or Suspended Registrations Under Section 6(g) of the Federal Insecticide, Fungicide and Rodenticide Act (EPA Form No. 1519.04), OMB Control Number 2070-0109, Expiration Date: 8/31/97.

Abstract: Section 6(g) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) requires any producer or exporter of pesticides, registrant of a pesticide, applicant for registration of a pesticide, applicant for or holder of an experimental use permit, commercial applicator, or any person who distributes or sells any pesticide, who possesses any pesticide which has had its registration suspended or canceled under section 6 to notify the Administrator and appropriate State and local officials of: (1) Such possession; (2) the quantity of such pesticide such person possesses, and (3) the place at which such pesticide is stored.

EPA may require affected persons to submit information on the storage of canceled or suspended pesticides through FIFRA section 6 Suspension and/or Cancellation orders or through Notices published in the Federal Register. The formats, procedures, and identification of persons who must submit FIFRA section 6(g) information will appear in the Suspension/Cancellation Order or Federal Register Notice itself. The information required by FIFRA section 6(g) will be used by

the Agency for compliance monitoring purposes (identification of areas where large amounts of suspended/canceled products are being stored, inspection targeting to assure adequate storage and compliance with the terms of the cancellation or suspension order, inspections to confirm the adequacy of the registrant's recall plans, etc.), indemnification determinations for emergency suspended and canceled products, the determination of disposal burdens, to aid the FIFRA section 19 recall process, and to aid the Agency in the development of a reimbursement plan for the registrant's costs for the storage of canceled and suspended pesticides which have been recalled under FIFRA section 19.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement:

Burden Hours per Response: 1.5 hours per respondent which includes time for reading the Federal Register or Notice of Intent to Cancel, plan activities, create and gather information, process information, and record and report information.

Frequency of Response: As necessary. Burden estimates are based on an estimate of 2 suspensions or cancellations per year.

Number of Respondents: 104,000 respondents (52,000 potential respondents per action) who may be required to submit information per year.

Total Annual Reporting and Recordkeeping Burden: 156,000 hours.

This estimate includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: February 27, 1997.

Elliott J. Gilberg,

Acting Director, Office of Compliance.

BILLING CODE 6560-50-P

Environmental Statistics Subcommittee of the National Advisory Council for Policy and Technology; Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Environmental Statistics Subcommittee (of the Environmental Information, Economics and Technology Committee) of the National Advisory Council on Environmental Policy and Technology (NACEPT) will hold a one and one-half day meeting of the full Subcommittee.

The Environmental Statistics Subcommittee was formed to provide key recommendations and strategic advice on the statistical products and activities necessary to enhance the Agency's knowledge about environmental statistics and trends, and to explore information gaps from the perspective of the users/products of these data products. The meeting is being held to discuss and offer critical advice on initiatives of the Office of Strategic Planning and Environmental Data.

Scheduling constraints preclude oral comments from the public during the meeting. Written comments can be submitted by mail, and will be transmitted to Committee members for consideration.

DATES: The public meeting will be held on April 10, 1997 from 9:00 a.m. to 5:00 p.m. and April 11, 1997 from 9:00 a.m. to 1:00 p.m.

ADDRESSES: The meetings will be held at the World Resources Institute 1709,

New York Avenue N.W., 2nd Floor Conference Room Washington, D.C. 20006. This meeting is open to the public. Due to limited space, seating at the meeting will be on a first-come basis. Written comments should be sent to: N. Phillip Ross, Office of Strategic Planning and Environmental Data, U.S. Environmental Protection Agency, Mail Code 2161, 401 M Street, S.W., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: N. Phillip Ross, Designated Federal Official, Direct Line (202) 260-0250, General Line (202) 260-5244, FAX (202) 260-8550.

Dated: February 27, 1997.

N. Phillip Ross,

Designated Federal Official.

[FRL-5698-9]

Science Advisory Board; Notice of Public Teleconferences

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that two Committees of the Science Advisory Board (SAB) will conduct public teleconference meetings on the dates noted below. The meetings are all open to the public. All times noted are Eastern Time.

1. Executive Committee

The Science Advisory Board's (SAB) Executive Committee, will conduct a public teleconference meeting on Monday, March 17, 1997, between the hours of 12:00 and 1:00 p.m. Eastern Time. The meeting will be coordinated through a conference call connection in Room 2103 of the Mall at the Environmental Protection Agency, 401 M Street SW., Washington, DC 20460. The public is welcome to attend the meeting physically or through a telephonic link. Additional instructions about how to participate in the conference call can be obtained by calling Ms. Priscilla Tillery-Gadsen at 202-260-4126 by March 12.

In this meeting the Executive Committee plans to review the report from its *Integrated Human Exposure Committee*—Review of the Agency's Exposure Factors Handbook. If time permits, the Committee may discuss other issues.

Any member of the public wishing further information concerning the meeting or who wishes to submit comments should contact Dr. Donald G. Barnes, Designated Federal Official for the Executive Committee, Science

Advisory Board (1400), U.S. Environmental Protection Agency, Washington DC 20460; telephone (202) 260-4126; FAX (202) 260-9232; or via the INTERNET at barnes.don@epamail.epa.gov. Copies of the review document are available from the same source.

2. Advisory Council on Clean Air Compliance Analysis

The Advisory Council on Clean Air Compliance Analysis (ACCACA, or the "Council") of the Science Advisory Board (SAB) plans to hold four public teleconferences on the dates and times described below. All meetings are open to the public, however, the number of available phone lines is limited. For further information concerning the specific meetings described in this notice, please contact the individuals listed below. Documents that are the subject of SAB reviews are normally available from the originating EPA office and are *not* available from the SAB Office. These teleconferences are a follow-up to earlier Council discussions held on November 7 and 8, 1996 concerning the 1990 Clean Air Act (CAA) Section 812 Retrospective and Prospective Studies (See 61 FR, 54196, Thursday, October 17, 1996).

The Council has allocated four dates for public teleconferences to deal with both the Retrospective and the Prospective Studies. The dates, times, and anticipated topical issues to be discussed are listed as follows:

(a) *Friday, March 14, 1997 (11:00 a.m. to 2:00 p.m.): Prospective Study and Retrospective Study:* The major topic planned for this teleconference is review of the Prospective Study emissions modeling assumptions, methodology, results and documentation. The Council will provide advice to the Agency on the validity and utility of the emissions modeling data within the purposes of the current Prospective Study. It is also planned that logistical and scheduling aspects of both the Prospective and Retrospective Studies will be briefly discussed during this public teleconference. Some discussion may occur on select Retrospective Study issues at this teleconference. However, the preferred plan is to keep these topics separate, with this teleconference being reserved primarily to deal with the Prospective Study.

(b) *Wednesday, March 19, 1997 (11:00 a.m. to 1:00 p.m.): Prospective Study and Retrospective Study:* The major topics for this teleconference are to complete review of the Prospective Study emissions modeling assumptions, methodology, results and

documentation (if more time is needed after the discussions of March 14), and to begin closure review on the Retrospective Study issues. The timing of which specific issues are to be discussed at each teleconference will be planned at this or the previous (March 14, 1997) teleconference, and will be driven by the schedule of availability of the Lead Discussants and other Council participants. The Council identified a number of Retrospective Study issue areas, some of which are listed here as follows: valuation of bronchitis and heart disease; presentation of baseline ("but for" issues, that is, but for the presence of the 1990 Clean Air Act), choice of study for estimating PM-related mortality (includes physical effects); costs (operations and maintenance costs, cost-of-clean, etc.); ecological effects; valuing changes in intelligence quotient (IQ) issues; presentation of life years lost calculations (life years remaining issue); methodological effects; morbidity effects by age; and research needs. Other related issues are planned to be discussed as time permits.

(c) *Friday, March 21, 1997 (11:00 a.m. to 2:00 p.m.): Retrospective Study:* The major topic of this teleconference is to continue closure review on the Retrospective Study issue areas identified above. Specific issue areas will be scheduled to match the availability of the Lead Discussants and other interested Council participants.

(d) *Wednesday, March 26, 1997 (11:00 a.m. to 2:00 p.m.): Retrospective Study:* The major topic of this teleconference is to continue closure review on the Retrospective Study issue areas identified above. If all the issue areas have been discussed in the earlier teleconferences, the Council members may elect to cancel this session. However, this time is being reserved for the Council just in case they need additional discussions to facilitate closure on the Retrospective Study.

After the teleconference sessions are complete, the Agency plans to revise the Retrospective Study Report to Congress and re-issue it to the entire Council and the public for one final closure review prior to submitting the document for Executive Branch review and subsequent submission to Congress.

Please contact the SAB staff (see below) to determine the logistics and details of the individual public teleconference meetings, or if the later planned meetings will be necessary.

Purpose of the Teleconferences

The specific topic of the Prospective Study review is the draft emissions modeling assumptions, methodology,
