Background

The National Institute of Justice is soliciting proposals that respond to the broad mandate of the Institute's solicitation for investigator-initiated research. Applicants may submit proposals to explore topics relevant to State or local criminal justice practice or policy. Some of the current themes of interest to the Institute include: Rethinking justice to meet the challenges of the 21st century; understanding the nexus between crime and social problems; breaking the cycle of offender recidivism and other reoccurring criminal justice problems; developing new technologies, practices, and techniques for use in the criminal justice system; expanding the horizons of criminal justice by looking beyond traditional crime definitions and into new possibilities of study such as

transnational and cybercrimes. These topics represent a broad vision of directions that the Institute intends to pursue in the next few years. Researchers may relate their proposals to these topics or develop projects that fall outside of these themes on the condition that the proposed research falls within NIJ's statutory mission. 1. Background

Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Regional Administrator for Occupational Safety and Health (hereinafter called the Regional Administrator), under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1593.4), will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR part 1902. These standards are contained in COMAR 09.12.31. Maryland Occupational Safety and Health Standards were promulgated after public hearings on (1) March 1, 1995; (2)

September 6, 1995; (3) October 5, 1995; (4) November 1, 1995; (5 and 6) April 3, 1996; (7 and 8) July 3, 1996; and (9 and 10) September 13, 1996. 2. Decision

Having reviewed the State submissions in comparison with the Federal standards, it has been determined that the State standards are identical to the Federal standards and, accordingly, are approved.

3. Location of the Supplements for Inspection and Copying

A copy of the standards supplements, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, 3535 Market Street, Suite 2100, Philadelphia, Pennsylvania 19104; Office of the Commissioner of Labor and Industry, 501 St. Paul Place, Baltimore, Maryland 21202, and the OSHA Office of State Programs, U.S. Department of Labor, Room N3700, 3rd Street and Constitution Avenue NW., Washington, DC 20210.

4. Public Participation

Under 29 CFR 1953.2(c), the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Maryland State plan as a proposed change and making the Regional Administrator's approval effective upon publication for the following reasons:

a. The standards are identical to the Federal standards which were promulgated in accordance with Federal law including meeting requirements for public participation.

b. The standards were adopted in accordance with the procedural requirements of State law and further participation would be unnecessary.

This decision is effective April 8, 1997.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at Philadelphia, Pennsylvania, this 6th day of March 1997.

Linda R. Anku,

Regional Administrator.
