#### Federal Energy Regulatory Commission

[Docket No. CP97-25-000]

#### Northern Natural Gas Company; Notice of Availability of the Environmental Assessment for the Proposed Peak Day 2000 Expansion Project

April 14, 1997.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Northern Natural Gas Company (Northern) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed

project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the proposed pipeline looping facilities including:

- Three 30-inch-diameter mainline loops in Hardin County, Iowa and Rice and Washington Counties, Minnesota;
- Four branchline loops (6-, 6-, 6-, and 12-inch-diameter pipelines in Dakota, Scott, Wright, and Carver Counties, Minnesota and Dickinson County, Iowa;
- One 8-inch-diameter branchline replacement (Carver County, Minnesota) and one 6-inch-diameter branchline tie-over (Jackson County, Iowa);
- Three new compressor stations and six modified compressor stations in Washington, Steele, Rice, and Dakota Counties, Minnesota, Guthrie and Hardin Counties, Iowa, Clay County, Kansas, and Gage and Otoe County, Nebraska; and
- Three new town border stations and 31 modified town border stations in various counties in Minnesota, Iowa, Wisconsin, and Nebraska.

The purpose of the proposed facilities would be to provide about 267,161 thousand cubic feet per day (Mcf/d) of gas to 26 local distribution companies, commercial, and industrial customers in Northern operational zones ABC, D, and EF.

The EA has been placed in the public files of the FERC and is available for public inspection at: Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 208-1371.

Copies of the EA have been mailed to Federal, state and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding. A limited number of copies of the EA are available from the above address.

#### Specific Comment Request

Areas residents, local or state governments, intervenors, Northern, and other interested parties are asked to provide specific comments on whether the Rockford branchline alternative is reasonable and practicable and environmentally preferable to the proposed facilities. Comments should also address any effect on project timing and related cost/benefits.

#### Comment Procedures

Any person wishing to comment on the EA may do so. Written comments

must reference Docket No. CP97-25-000, and be addressed to: Office of the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1A, Washington, DC 20426.

Comments should be filed as soon as possible, but must be received no later than May 16, 1997, to ensure consideration prior to a Commission decision on this proposal.

Comments will be considered by the Commission but will not serve to make the commentator a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).
