## DEPARTMENT OF LABOR

### Occupational Safety and Health Administration

#### Construction Fall Protection Plans and Records

**AGENCY:** Occupational Safety and Health Administration, Labor.

**ACTION:** Notice; proposed information collection request; submitted for public comment and recommendations.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burdens, is conducting a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA 95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and impact of collection requirements on respondents can be properly assessed. Currently, the Occupational Safety and Health Administration is soliciting comments concerning the proposed extension of approval for the paperwork requirements of 29 CFR 1926.502 and 1926.503, Fall Protection in Construction.

**DATES:** Written Comments must be submitted on or before June 30, 1997. Comments should:

Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will be practical utility;

Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

Enhance the quality, utility, and clarity of the information to be collected; and

Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

**ADDRESSES:** Comments are to be submitted to the Docket Office, Docket ICR-97-7, U.S. Department of Labor, Room N-2625, 200 Constitution Avenue, NW., Washington, DC 20210, (202) 219-7894. Written comments limited to 19 pages or less may be transmitted by facsimile to (202) 219-5046.

**FOR FURTHER INFORMATION CONTACT:** Mr. Laurence Davey, Directorate of Construction, Occupational Safety and Health Administration, U.S. Department of Labor, Room N3621, 200 Constitutional Avenue, NW., Washington, DC 20210, (202) 219-7198. Copies of the referenced information collection requests are available for inspection and copying in the Docket Office and will be mailed immediately to persons who request copies by telephoning Vivian Allen at (202) 219-8076. For electronic copies, contact the Labor News Bulletin Board (202) 219-4784; or OSHA's Web Page on Internet at <http://www.osha.gov/>.

#### SUPPLEMENTARY INFORMATION:

##### Background

The Occupational Safety and Health Administration (OSHA) currently has approval from the Office of Management

and Budget (OMB) for certain information collection requirements contained in 29 CFR 1926.502 and 1926.503. That approval will expire on September 30, 1977, unless OSHA applies for an extension of the OMB approvals. This notice initiates the process for OSHA to request an extension of the current OMB approval.

As part of OMB's and OSHA's continuing paperwork reduction effort, OSHA seeks to reduce the paperwork burden hours in 29 CFR 1926.502 and 1926.503 based on input from parties interested in the regulatory scope of that regulation. The purpose of this notice is to solicit public comment on OSHA's existing paperwork burden estimates from those interested parties and to seek public response to several questions related to the development of OSHA's estimates. Interested parties are requested to review OSHA's estimates which are based on information available during rulemaking and to comment on their accuracy or appropriateness in today's workplace situation. OSHA bases its existing estimates upon information made available to the agency during the initial rulemaking effort for 29 CFR 1926.500-.503 (August 9, 1994, 59 FR 40672) and is interested in learning whether they are outdated.

#### Current Action

This notice requests an extension of the current OMB approval of the paperwork requirements in 29 CFR 1926.502 and 1926.503 Certification of Safety Net Installation, Fall Protection Plans and Training Certification Records.

*Type of Review:* Extension of existing approval.

*Agency:* Occupational Safety and Health Administration, U.S. Department of Labor.

*Title:* Fall Protection in Construction.  
*OMB Number:* 1218-0197.

Agency Number: Docket No. ICR-97-7.

Emergency: On Occasion.

Affected Public: Business or other for-profit.

Number of Respondents: 6,000 (sites of net installation certification); 100,000 (sites using Fall Protection Plan); and 4 million (workers trained).

Estimated Time Per Respondent: 5 minutes (Safety Net Certification Records); One hour and 5 minutes (Fall Protection Plan); 5 minutes (Training Certification Records).

Total Burden Hours: 767,246 Hours (500 hours for safety net certification records; 100,080 hours for the fall protection plans; and 666,666 hours for training certification records).

Comments submitted in response to this notice will be summarized and included in a request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Signed this 18th day of April 1997.

Russell B. Swanson,

Director, Directorate of Construction.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (97-051)]

NASA Advisory Council, Advisory Committee on the International Space Station (ACISS); Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Aeronautics and Space Administration announces a meeting of the NASA Advisory Council, Advisory Committee on the International Space Station.

DATES: Monday, May 12, 1997, from 8:30 a.m. until 4 p.m. and Tuesday, May 13, 1997, from 8:30 a.m. until 4 p.m. On Tuesday, May 13, 1997, the Advisory Committee on the International Space Station will meet jointly with the NASA Advisory Council, Life and Microgravity Science and Application Advisory Committee.

ADDRESSES: Monday, May 12, 1997 NASA Headquarters, PRC, 9th Floor, 300 E Street, SW, Washington, DC 20546; and Tuesday, May 13, 1997, NASA Headquarters, MIC 7, 7th Floor, 300 E Street, SW, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT:

Mr. W. Michael Hawes, Code M-4 National Aeronautics and Space Administration, Washington, DC 20546, 202/358-0242.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:

- Program Status Update.
• EVA Requirements.
• Task Group Reports.

It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

Dated: April 21, 1997.

Leslie M. Nolan,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-387 and 50-388]

Pennsylvania Power and Light Company; Notice of Issuance of Amendments to Facility Operating License

The U.S. Nuclear Regulatory Commission (Commission) has issued Amendment Nos. 165 and 137 to Facility Operating License Nos. NPF-14 and NPF-22, respectively, to Pennsylvania Power & Light Company, (the licensee), which revised the Technical Specifications for operation of the Susquehanna Steam Electric Station, Units 1 and 2, located in Luzerne County, PA. The amendment is effective as of the date of issuance.

The amendment modified the current Technical Specifications (TSs) for each unit to include two sections of the Improved Technical Specifications (ITS) by adding Limiting Condition for Operation (LCO) 3.10.3, "Single Control Rod Withdrawal-Hot Shutdown," and LCO 3.10.4, "Single Control Rod Withdrawal-Cold Shutdown," in a modified format and with cross references that are compatible with the current TSs. This change permits control rod drive tests to be conducted during refueling operations. The LCOs in the ITS format will be issued at a later date with the full ITS conversion package.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses and Opportunity for a Hearing in connection with this action was published in the Federal Register on March 5, 1997 (62 FR 10090). No request for a hearing or petition for leave to intervene was filed following this notice.

The Commission has prepared an Environmental Assessment related to the action and has determined not to prepare an environmental impact statement. Based upon the environmental assessment, the Commission has concluded that the issuance of the amendment will not have a significant effect on the quality of the human environment (62 FR 17886).
