RIN 1515-AA57

Update of Ports Subject to the Harbor Maintenance Fee

AGENCY: Customs Service, Department of the Treasury.

ACTION: Interim regulation; solicitation of comments.

SUMMARY: Commercial vessels transporting cargo at certain ports are subject to a harbor maintenance fee pursuant to the Water Resources Development Act of 1986 and interim Customs Regulations regarding the harbor maintenance fee. This document amends the list of ports subject to the fee. This amendment is made to further clarify the port descriptions and to update the list as to locations which are exempt from the fee.

DATES: Effective June 4, 1997. Written comments must be received by July 7, 1997.

ADDRESSES: Written comments (preferably in triplicate) may be submitted to the Regulations Branch, Office of Regulations and Rulings, U.S. Customs Service, Franklin Court, 1301 Constitution Avenue, NW, Washington, DC 20229, and may be inspected at Franklin Court, 1099 14th Street, NW, Washington, DC.

SUPPLEMENTARY INFORMATION:**Background**

The Water Resources Development Act of 1986 (Pub. L. 99-662) established a Harbor Maintenance Trust Fund to be used for improving and maintaining ports and harbors in the U.S. Pursuant to the Act, this fund is supported by a harbor maintenance fee assessed on port use by vessels carrying waterborne commercial cargo. By assessing a charge for port use, the Act causes those shippers, exporters and importers who benefit from the maintenance of a Federal port or harbor to share in the cost of that maintenance.

The Act defines port generally as any channel or harbor or component thereof

in the U.S. which is not an inland waterway, is open to public navigation, and at which Federal funds have been used since 1977 for construction, maintenance or operation.

Customs published T.D. 87-44 in the **Federal Register** (52 FR 10198) on March 30, 1987, establishing interim regulations for the collection of the harbor maintenance fee. The regulations are set forth in § 24.24, Customs Regulations (19 CFR 24.24). When drafting T.D. 87-44, Customs, in conjunction with the U.S. Army Corps of Engineers, took the definition of port in the Act and established a list of ports in § 24.24(b)(1), Customs Regulations (19 CFR 24.24(b)(1)). The list of ports includes in the descriptions and notations column the description of movements which are considered intraport; pursuant to the Act and § 24.24(d)(1) of the regulations, the fee is not to be assessed on the mere movement of commercial cargo within a port. Commercial ports with depths of less than 14 feet were not included on the list. Customs stated in T.D. 87-44 that the list is subject to change and will be amended, if necessary, to reflect money spent by the U.S. Army Corps of Engineers for construction, maintenance or operation of any port not on the original list. The list of ports which are subject to the HMF was amended in T.D. 92-7.

Since the publication of T.D. 92-7, there has been some modification of ports on which there is relevant Corps of Engineers activity. In order to provide the shipping public with the best available information on which ports the HMF will be assessed, Customs has decided to publish this revised list of HMF ports.

Litigation is ongoing regarding the constitutionality of the HMF as it is applied to port use associated with exports. However, the fee is still being collected for all purposes pending the outcome of the litigation and will most likely continue to be collected on port use not associated with exports

regardless of the outcome of the litigation.

In this document, Customs again is amending the interim regulations on the harbor maintenance fee to clarify the listing in § 24.24(b)(1) of ports subject to the HMF. A document finalizing the interim regulations on the HMF will be published once the litigation involving the constitutionality of the fee has been completed.

Comments

It is noted that the harbor maintenance fee regulations are still interim. While the comment period has expired on the main portion of the interim regulations (see 52 FR 20593, dated June 2, 1987; extension of comment period on interim regulations to August 28, 1987), Customs will give consideration any written comments (preferably in triplicate) timely submitted relating to the description of the ports set forth in this document. Comments submitted will be available for public inspection in accordance with the Freedom of Information Act (5 U.S.C. 552), § 1.4, Treasury Department Regulations (31 CFR 1.4), and § 103.11(b), Customs Regulations (19 CFR 103.11(b)), on regular business days between the hours of 9:00 a.m. and 4:30 p.m., at the Regulations Branch, 1099 14th Street, NW., Suite 4000, Washington, DC.

Inapplicability of Notice and Delayed Effective Date

The statutory effective date of the harbor maintenance fee was April 1, 1987. Because these amendments merely clarify the interim regulations that implement the statutory provision and do not impose any additional burdens on, or take away any existing rights or privileges from the public, pursuant to 5 U.S.C. 553(b)(B), notice and public procedure is impracticable and unnecessary. Similarly, pursuant to 5 U.S.C. 553(d)(1)(3), a delayed effective date is not provided. These amendments

are effective as of the date of publication in the **Federal Register**.

Executive Order 12866 and Regulatory Flexibility Act

This amendment does not meet the criteria for a "significant regulatory action" under E.O. 12866. Because no notice of proposed rulemaking is required, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 178

[Docket No. 96F-0369]

Indirect Food Additives: Adjuvants, Production Aids, and Sanitizers

AGENCY: Food and Drug Administration,
HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the expanded safe use of triisopropanolamine as a component of phosphorous acid, cyclic butylethyl propanediol, 2,4,6-tri-*tert*-butylphenyl ester, as a stabilizer for olefin polymers intended for use in contact with food. This action is in response to a petition filed by General Electric Co.

DATES: Effective June 4, 1997; written objections and requests for a hearing by July 7, 1997.

ADDRESSES: Submit written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, 12420 Parklawn Dr., rm. 1-23, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Vir D. Anand, Center for Food Safety and Applied Nutrition (HFS-215), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-418-3081.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of October 11, 1996 (61 FR 53379), FDA announced that a food additive petition (FAP 6B4522) had been filed by General

Electric Co., One Lexan Lane, Mt. Vernon, IN 47620-9364. The petition proposed to amend the food additive regulations in § 178.2010 *Antioxidants and/or stabilizers for polymers* (21 CFR 178.2010) to provide for the expanded safe use of triisopropanolamine as a component of phosphorous acid, cyclic butylethyl propanediol, 2,4,6-tri-*tert*-butylphenyl ester, as a stabilizer for olefin polymers intended for use in contact with food.

FDA has evaluated data in the petition and other relevant material. The agency concludes that: (1) The proposed use of the additive is safe, (2) the additive will achieve its intended technical effect, and (3) the regulations in § 178.2010 should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Center for Food Safety and Applied Nutrition by appointment with the information contact person listed above. As provided in § 171.1(h), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has carefully considered the potential environmental effects of this action. FDA has concluded that the action will not have a significant impact on the human environment, and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding, contained in an environmental assessment, may be seen in the Dockets Management Branch (address above) between 9 a.m. and 4 p.m., Monday through Friday.

Any person who will be adversely affected by this regulation may at any time on or before July 7, 1997, file with the Dockets Management Branch (address above) written objections thereto. Each objection shall be separately numbered, and each numbered objection shall specify with particularity the provisions of the regulation to which objection is made

and the grounds for the objection. Each numbered objection on which a hearing is requested shall specifically so state. Failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held. Failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this document. Any objection received in response to the regulation may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.
