**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**Intent to Prepare a Draft Environmental Impact Statement on the Proposed Georgia Coastal Management Program**

**AGENCY:** National Oceanic and Atmospheric Administration.

**ACTION:** Notice of intent to prepare a draft environmental impact statement as required under the National Environmental Policy Act 42 U.S.C. 4321, *et seq.* (NEPA).

**SUMMARY:** Notice is hereby given of the intent to prepare a Draft Environmental Impact Statement (DEIS) on the proposed approval of the Georgia Coastal Management Program (GCMP, or Program) under the provisions of Section 306 of the Federal Coastal Zone Management Act of 1972, as amended, 16 U.S.C. 1455, and distribute it in August 1997.

Federal approval of the GCMP would make the State eligible for program administration grant funds and require that Federal actions be consistent with the Program.

The Program is the culmination of several years of development and consists of numerous State policies on diverse management issues which are prescribed by statute and made enforceable under State law. The Program should improve the decision making process for determining appropriate coastal land and water uses in light of resource considerations. The Program should increase public awareness of coastal resources. Federal alternatives will include delaying or denying approval if certain requirements of the Coastal Zone Management Act have not been met. State alternatives include the possibility of modifying parts of the Program or withdrawal of the request for Federal approval.

In order to determine the scope and significance of issues to be addressed in the DEIS, the Office of Ocean and Coastal Resource Management (OCRM) hereby solicits comments on the proposed action, particularly with respect to the following issues:

(1) The adequacy of the scope and geographic coverage of the Program's laws and regulations to manage impacts on wetlands, beaches, and other vulnerable natural resources;

(2) The adequacy of the mechanisms for State agency coordination and consultation in order to effectively implement the GCMP; and

(3) The adequacy of the mechanisms for ensuring State agency consistency with the policies of the GCMP and resolving conflicts between agencies.

The manner in which the State proposes to address the above requirements was presented in the Public Review Draft of the Program Document of the GCMP, in November 1996, and a revised Program Document in January 1997. The State has considered all comments submitted in response to those documents in the preparation of the GCMP Draft Program Document to be released with the DEIS in August. Copies of the State document are available from OCRM.

**DATES:** Persons or organizations wishing to submit comments on these or other issues should do so by July 7, 1997. Any comments received after that time will be considered in the response to comments received on the DEIS.

**ADDRESSES:** Requests for the above described documents and all comments should be made to: Joshua Lott, Coastal Programs Division, Southeast Region, Office of Ocean and Coastal Resource Management, 1305 East-West Highway (N/ORM3), Silver Spring, Maryland 20910; tel. 301/713-3117, ext. 178, e-mail:jlott@coasts.nos.noaa.gov.
