

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1205

[CN-97-003]

1997 Proposed Amendment to Cotton Board Rules and Regulations Adjusting Supplemental Assessment on Imports

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Agricultural Marketing Service (AMS) is proposing to amend the Cotton Board Rules and Regulations by lowering the value assigned to imported cotton for the purpose of calculating supplemental assessments collected for use by the Cotton Research and Promotion Program. This adjustment is required by this regulation on an annual basis to ensure that the assessments collected on imported cotton and the cotton content of imported products remain similar to those paid on domestically produced cotton. As a result of changes in the 1997 Harmonized Tariff Schedule (HTS), numbering changes in the import assessment table are proposed. Eleven HTS numbers are proposed to be eliminated from the assessment table because negligible assessments have been collected on these numbers and their elimination would contribute to reducing the overall burden to importers.

DATES: Comments must be submitted on or before July 7, 1997.

ADDRESSES: Comments may be mailed to USDA, AMS, Cotton Division, STOP 0224, 1400 Independence Ave. SW., Washington DC 20250-0224. All comments received will be available for public inspection at this address during the hours 8 a.m. to 4 p.m. Monday through Friday.

FOR FURTHER INFORMATION CONTACT:
Craig Shackelford, (202) 720-2259.

SUPPLEMENTARY INFORMATION:

Executive Order 12866

This proposed rule has been determined to be "not significant" for purposes of Executive Order 12866, and therefore, has not been reviewed by the Office of Management and Budget.

Executive Order 12988

This proposed rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect. This proposed rule would not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Cotton Research and Promotion Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 12 of the Act, any person subject to an order may file with the Secretary a petition stating that the order, any provision of the plan, or any obligation imposed in connection with the order is not in accordance with law and requesting a modification of the order or to be exempted therefrom. Such person is afforded the opportunity for a hearing on the petition. After the hearing, the Secretary would rule on the petition. The Act provides that the District Court of the United States in any district in which the person is an inhabitant, or has his principal place of business, has jurisdiction to review the Secretary's ruling, provided a complaint is filed within 20 days from the date of the entry of the ruling.

Regulatory Flexibility Act

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) AMS has considered the economic impact of this action on small entities and has determined that its implementation will not have a significant economic impact on a substantial number of small businesses.

There are an estimated 16,000 importers who are presently subject to rules and regulations issued pursuant to the Cotton Research and Promotion Order. This proposed rule will affect importers of cotton and cotton-containing products. The majority of these importers are small businesses under the criteria established by the Small Business Administration. This proposed rule would lower the assessments paid by the importers

Federal Register

Vol. 62, No. 109

Friday, June 6, 1997

under the Cotton Research and Promotion Order. Even though the assessment would be lowered, the decrease is small and will not significantly affect small businesses.

Also, as a result of changes in the 1997 HTS, numbering changes in the Import Assessment table would be made. These changes present no economic impact to persons subject to this regulation.

When the assessment table in the regulation containing HTS numbers was published in 1992 it included about 700 of approximately 2,500 available HTS cotton containing classifications. These HTS numbers represented approximately 97 percent of the annual volume of imported cotton containing textiles and apparel. The other classifications comprising about three percent of the annual import volume were omitted from the assessment table in order to accomplish the goal of the program to maximize assessment collection while, at the same time, minimizing the overall administrative burden involved.

In this proposal, eleven additional HTS numbers would be removed from the table because assessments collected on these numbers have been insignificant. Their removal would be consistent with the overall intent of the program. The assessments levied on the cotton content of these HTS numbers have accounted for an average of 0.11 percent or \$17,383 of the total assessments collected over the last three years. Total assessment collections for the same period averaged \$16,169,969. Collections on the four numbers in Chapter 53 averaged \$12,000 over the last three years and collections on the seven numbers in Chapter 54 averaged \$22,000 for the same period.

The current assessment on imported cotton is \$0.012874 per kilogram of imported cotton. The proposed assessment is \$0.012412, a decrease of \$0.000462 or a 3.6 percent decrease from the current assessment. From January through December 1996 approximately \$19,003,626 was collected at the \$0.012874 per kilogram rate. Should the volume of cotton products imported into the U.S. remain at the same level in 1997, one could expect the decreased assessment to generate \$18,319,495 or a 3.6 percent decrease from 1996.

The combined effect of the elimination of the eleven HTS numbers and the reduction in the value of imported cotton for the purpose of the assessment mechanism is expected to result in an annual reduction in assessment collections of approximately \$718,131.

Paperwork Reduction

In compliance with Office of Management and Budget (OMB) regulations (5 CFR part 1320) which implement the Paperwork Reduction Act (PRA) of 1980 (44 U.S.C. 3501 et seq.) the information collection requirements contained in the regulation to be amended have been previously approved by OMB and were assigned control number 0581-0093.

Background

The Cotton Research and Promotion Act Amendments of 1990 enacted by Congress under Subtitle G of Title XIX of the Food, Agriculture, Conservation and Trade Act of 1990 on November 28, 1990, contained two provisions that authorized changes in the funding procedures for the Cotton Research and Promotion Program.

These provisions are: (1) The assessment of imported cotton and cotton products; and (2) termination of the right of cotton producers to demand a refund of assessments.

An amended Cotton Research and Promotion Order was approved by producers and importers voting in a referendum held July 17-26, 1991. Proposed rules implementing the amended Order were published in the **Federal Register** on December 17, 1991, (56 FR 65450). The final implementing rules were published on July 1 and 2, 1992, (57 FR 29181) and (57 FR 29431), respectively.

This proposed rule would decrease the value assigned to imported cotton in the Cotton Board Rules and Regulations (7 CFR 1205.510(b)(2)). This value is used to calculate supplemental assessments on imported cotton and the cotton content of imported products. Supplemental assessments are the second part of a two-part assessment. The first part of the assessment is levied on the weight of cotton produced or imported at a rate of \$1 per bale of cotton which is equivalent to 500 pounds or \$1 per 226.8 kilograms of cotton.

Supplemental assessments are levied at a rate of five-tenths of one percent of the value of domestically produced cotton, imported cotton, and the cotton content of imported products. The agency has adopted the practice of assigning the calendar year average

price received by U.S. farmers for Upland cotton to represent the value of imported cotton. This is done so that the assessment on domestically produced cotton and the assessment on imported cotton and the cotton content of imported products remain similar. The source for the average price statistic is "Agricultural Prices", a publication of the National Agricultural Statistics Service (NASS) of the Department of Agriculture. Use of the average price figure in the calculation of supplemental assessments on imported cotton and the cotton content of imported products yields an assessment that approximates assessments paid on domestically produced cotton in the prior calendar year.

The current value of imported cotton as published in the **Federal Register** (61 FR 31817) on June 21, 1996 for the purpose of calculating supplemental assessments on imported cotton is \$1.6931 per kilogram. This number was calculated using the annual average price received by farmers for Upland cotton during the calendar year 1995 which was \$0.768 per pound and multiplying by the conversion factor 2.2046. Using the Average Price Received by U.S. farmers for Upland cotton for the calendar year 1996, which is \$0.726 per pound, the new value of imported cotton would be \$1.6005 per kilogram. The amended value would be \$0.0926 per kilogram less than the previous value.

An example of the complete assessment formula and how the various figures are obtained is as follows: One bale is equal to 500 pounds. One kilogram equals 2.2046 pounds. One pound equals 0.453597 kilograms.

One Dollar Per Bale Assessment Converted to Kilograms

A 500 pound bale equals 226.8 kg.
 $(500 \times .453597)$.
\$1 per bale assessment equals \$0.002000 per pound $(1 \div 500)$ or \$0.004409 per kg. $(1 \div 226.8)$

Supplemental Assessment of 5/10 of One Percent of the Value of the Cotton Converted to Kilograms

The 1996 calendar year average price received by producers for Upland cotton is \$0.726 per pound or \$1.6005 per kg. $(.726 \times 2.2046) = 1.6005$.

Five tenths of one percent of the average price in kg. equals \$0.008003 per kg. $(1.6005 \times .005)$.

Total Assessment

The total assessment per kilogram of raw cotton is obtained by adding the \$1 per bale equivalent assessment of \$0.004409 per kg. and the supplemental

assessment \$ 0.008003 per kg. which equals \$0.012412 per kg.

The current assessment on imported cotton is \$0.012874 per kilogram of imported cotton. The amended assessment would be \$0.012412, a decrease of \$0.000462 per kilogram. This decrease reflects the decrease in the Average Price of Upland Cotton Received by U.S. Farmers during the period January through December 1996.

Since the value of cotton is the basis of the supplemental assessment calculation and the figures shown in the right hand column of the Import Assessment Table 1205.510(b)(3) are a result of such a calculation, the figures in this table are proposed to be revised. These figures indicate the total assessment per kilogram due for each Harmonized Tariff Schedule (HTS) number subject to assessment.

As a result of changes in the Harmonized Tariff Schedule, numbering revisions to the Import Assessment Table used in the Cotton Research and Promotion program were necessary. These changes are as follows:

Numbers Changed:

Old No.	New No.	Comment
5209110030	5209110035	Use same conversion factor.
5209316030	5209316035	Use same conversion factor.
5211210030	5211210035	Use same conversion factor.
6104622010	6104622011	Use same conversion factor.
6104622015	6104622021	Use same conversion factor.
6104622025	6104622028	Use same conversion factor.
6104632010	6104632011	Use same conversion factor.
6104632025	6104632028	Use same conversion factor.

The Cotton Board, the cotton producer and cotton importer board of directors that assist the Secretary in administering the import assessment, has requested that AMS remove certain HTS numbers from the assessment table. AMS has accepted this recommendation and is proposing to remove 11 HTS numbers from the assessment table. Once removed from the assessment table, these numbers would no longer be subject to assessment.

The 1990 Amendments to the Cotton Research and Promotion Act provided

authority to implement exemptions from assessments for de minimus values or quantities of cotton. The Act amendments further provided exemption from assessment for industrial products made of cotton. The Agency implemented the first assessment table on July 1, 1992 (56 FR 29181) and stated that in determining which of approximately 2,500 cotton containing HTS numbers to include, the primary objective was to meet the intent of the 1990 Act amendments by maximizing assessment collection and at the same time minimize the burden of administering the assessment provision.

It was determined that approximately 97 percent of the annual volume of imported textiles and apparel were classified under approximately 700 HTS numbers. The agency determined that limiting assessments to these approximate 700 HTS numbers would accomplish the objective of maximizing assessment collection and minimizing administrative burden. At the same time, the vast majority of the volume of imported cotton textiles and apparel would be assessed.

The agency has determined that an additional reduction in the number of HTS numbers assessed is consistent with the concept of excluding from assessment de minimus amounts of cotton and is also consistent with the objective of maximizing assessment collections while minimizing administrative burdens.

Eleven numbers found in the HTS chapter 53 (man-made fiber filaments) and chapter 54 (other vegetable fibers) are proposed to be removed. These assessments levied on the cotton content of these HTS numbers have accounted for an average of 0.11 percent or \$17,383 of the total assessments collected over the last three years. Total assessment collections for the same period averaged \$16,169,969. Collections on the four numbers in Chapter 53 averaged \$12,000 over the last three years and collections on the seven numbers in Chapter 54 averaged \$22,000 for the same period.

It is the view of the Cotton Board and AMS that elimination of these 11 numbers would reduce the number of HTS numbers subject to assessment without any appreciable decrease in the total assessments collected. Eliminating these numbers also would contribute to lowering the overall administrative burden of processing and collecting the assessments.

The HTS numbers proposed for elimination from the assessment table are as follows:

List of Subjects in 7 CFR Part 1205

Advertising, Agricultural research, Cotton, Marketing agreements, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 1205 is proposed to be amended as follows:

PART 1205—COTTON RESEARCH AND PROMOTION

1. The authority citation for part 1205 continues to read as follows:

Authority: 7 U.S.C. 2101–2118.

2. In § 1205.510, paragraphs (b)(2) and the table in paragraph (b)(3)(ii) are proposed to be revised to read as follows:

§ 1205.510 Levy of assessments.

* * * * *

(b) * * *

(1) * * *

(2) The 12-month average of monthly average prices received by U.S. farmers will be calculated annually. Such average will be used as the value of imported cotton for the purpose of levying the supplemental assessment on imported cotton and will be expressed in kilograms. The value of imported cotton for the purpose of levying this supplemental assessment is \$1.6005 per kilogram.

RIN 0583-AB95		
Continuous Chilling of Split Poultry Portions		
AGENCY: Food Safety and Inspection Service, USDA.		
ACTION: Proposed rule.		
SUMMARY: FSIS is proposing to amend the poultry products inspection regulations to specify that the continuous immersion chilling of the front or rear portions of transversely-split carcasses is permitted. The existing regulations permit the continuous
