#### Agency Information Collection Activities, Proposed Collection; Comment Request

*Title:* Early Head Start Evaluation Father Study.

OMB No: New Request.

**Description:** The Head Start Reauthorization Act of 1994 established a special initiative creating funding for services for families with infants and toddlers. In response the Administration on Children, Youth and Families (ACYF) designed the Early Head Start (EHS) program. In September 1995, ACYF awarded grants to 68 local programs to serve families with infants and toddlers. ACYF awarded grants to an additional 75 local programs in September 1996.

EHS programs are designed to produce outcomes in four domains: (1) child development, (2) family development, (3) staff development, and (4) community development. The Reauthorization required that this new initiative be evaluated. To study the effect of the initiative, ACYF awarded a contract through a competitive procurement to Mathematica Policy Research, Inc. (MPR) with a subcontract to Columbia University's Center for Young children and Families and to 15 EHS local research universities. The evaluation will be carried out from October 1, 1995 through September 30, 2000. Data collection activities that are the subject of this **Federal Register** notice are intended for the second phase of the EHS evaluation.

The sample for the assessments will be approximately 1,360 fathers from the 3,400 EHS sample families, whose mothers and infants/toddlers are participating in the study (see OMB #0970-0143) in 16 EHS study sites. Each family is randomly assigned to a treatment group or a control group. The assessments will be conducted through personal interviewing, structured observations and videotaping. All data collection instruments have been designed to minimize the burden on respondents by minimizing interviewing and assessment time. Participation in the study is voluntary and confidential.

The information will be used by government managers, Congress and others to better understand the roles of fathers and father-figures with their children and in the EHS program.

**Respondents:** Fathers or father-figures of children whose families are in the EHS national evaluation sample (both program and control group families).
