

(CAA) section 812 Retrospective and Prospective Studies (see 61 FR 54196, Thursday, October 17, 1996), as well as public teleconferences held in March 14, 19 and 26, and May 15, 1997 (See 62 FR 10045, Wednesday, March 5, 1997 and 62 FR 19320, Monday, April 21, 1997, for further information). Please note that the previously advertised teleconferences of March 21 and May 16, 1997 were cancelled. Specifically, the March 21, 1997 teleconference was cancelled to give the Agency staff time to prepare select text edits to the Retrospective Study, and have discussion on them at the March 26, 1997 public teleconference. The May 16, 1997 teleconference was cancelled so that the Agency staff would have time to prepare a strategic vision and plan to present and discuss with the Council at its June 30, 1997 public teleconference.

The latest revised draft Retrospective Study document, dated April 1997 is not available from the Science Advisory Board, but may be obtained by contacting Ms. Michelle Olawuyi (see below for ordering information). The Prospective Study emissions estimates draft documents, as well as a brief paper on the strategic plan are available from Mr. James DeMocker, Office of Air and Radiation (see below for ordering information).

With regard to closure on the Retrospective Study Report to Congress, the Council identified a number of Retrospective Study issue areas, some of which are listed here as follows: valuation of bronchitis and heart disease; presentation of baseline ("but for" issues, that is, but for the presence of the 1990 Clean Air Act), choice of study for estimating PM-related mortality (includes physical effects); costs (operations and maintenance costs, cost-of-clean, etc.); ecological effects; valuing changes in intelligence quotient (IQ) issues; presentation of life years lost calculations (life years remaining issue); methodological effects; morbidity effects by age; and research needs. While most of these issues are settled, it is anticipated that the closure discussions will touch on some of these issues. Other related issues may be discussed as time permits.

To discuss technical aspects or obtain copies of the draft EPA documents pertaining to the CAA section 812 Retrospective Study select draft text edits as well as the Prospective Study strategic vision and plan, as well as emissions estimates, please contact Mr. James DeMocker, Office of Policy Analysis and Review (OAR) (MC 6103), US Environmental Protection Agency,

teleconferences, where brief written materials may be FAXed to the participants, with more detailed or lengthy materials received too close to the teleconference to be mailed to the Council or its appropriate subcommittee participants shortly after the teleconference.
