#### Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof From Germany; et al.; Amended Final Results of Antidumping Duty Administrative Reviews

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of final court decision and amended final results of administrative reviews

**SUMMARY:** On November 19, 1996, the Court of International Trade (CIT) affirmed the Department of Commerce's (the Department's) final remand results affecting final assessment rates for the first administrative reviews (covering the period November 9, 1988 through April 30, 1990) of the antidumping duty orders on antifriction bearings (other than tapered roller bearings) and parts thereof from France, Germany, Italy, Japan, Sweden, and the United Kingdom. The classes or kinds of merchandise covered by these reviews

are ball bearings and parts thereof, cylindrical roller bearings and parts thereof, and spherical plain bearings and parts thereof. As there is now a final and conclusive court decision in these actions, we are amending our final results of reviews and we will subsequently instruct the U.S. Customs Service to liquidate entries subject to this review. The Department has already instructed the U.S. Customs Service to liquidate entries subject to the first administrative reviews of the antidumping duty orders on antifriction bearings (other than tapered roller bearings) and parts thereof from Singapore and Thailand as a result of final and conclusive court decisions at an earlier date.

**EFFECTIVE DATE:** June 17, 1997.

#### SUPPLEMENTARY INFORMATION:

##### Background

On July 11, 1991, the Department published its final results of administrative reviews of the antidumping duty orders on antifriction bearings (other than tapered roller bearings) and parts thereof, from France, Germany, Italy, Japan, Romania, Singapore, Sweden, Thailand, and the United Kingdom, covering the period November 9, 1988 through April 30, 1990 (*AFBs I*) (56 FR 31692). The classes or kinds of merchandise covered by these reviews are ball bearings and parts thereof, cylindrical roller bearings and parts thereof, and spherical plain bearings and parts thereof. Subsequently, two domestic producers, the Torrington Company and Federal-Mogul, and a number of other interested parties, filed lawsuits with the CIT challenging the final results. These lawsuits were litigated at the CIT and the Court of Appeals for the Federal Circuit (CAFC). In the course of this litigation, the CIT issued a number of orders and opinions of which the following have resulted in changes to

the antidumping margins calculated in *AFBs I*:

*Nachi-Fujikoshi Corp. v. United States*, Ct. No. 91-08-00595, 798 F. Supp. 716 (CIT 1992), (Japan).

In the context of the above-cited litigation, the CIT, in some cases based on decisions by the CAFC, ordered the Department to make methodological changes and to recalculate the antidumping margins for certain firms under review. Specifically, the CIT ordered the Department, *inter alia*: (1)

To change its methodology to account for VAT taxes with respect to the comparison of U.S. and home market prices; (2) to not deduct pre-sale inland freight incurred in the home market if the Department determined that there was no statutory authority to make such a deduction; (3) to develop a methodology which removes post-sale price adjustments and rebates paid on out-of-scope merchandise from any adjustment made to foreign market value or to deny such an adjustment if a viable method could not be found; (4) to apply a best-information-available rate where a firm failed to report U.S. sales discounts properly, and (5) to correct certain clerical errors.

On May 16, 1996, the CIT affirmed the final remand results of the Department for all the above-cited cases (Slip Op. 96-77) (except those cases involving Singapore and Thailand for which there were final and conclusive court

decisions at an earlier date) and, on November 13, 1996, the Court ordered these cases dismissed (Slip Op. 96-183). As there are now final and conclusive court decisions in these actions, we are amending our final results of review in these matters and we will subsequently instruct the U.S. Customs Service to liquidate entries subject to these reviews.

#### Amendment to Final Determination

Pursuant to 516A(e) of the Tariff Act, we are now amending the final results of administrative reviews of the antidumping duty orders on antifriction bearings (other than tapered roller bearings) and parts thereof from France, Germany, Italy, Japan, Romania, Singapore, Sweden, Thailand and the United Kingdom and the period November 9, 1988 through April 30, 1990. <sup>1</sup> No U.S. sales during the review period.

<sup>2</sup> No review requested.

<sup>3</sup> No change to original margin as a result of litigation.

<sup>4</sup> No antidumping order covers this merchandise.

The above rates will become the new antidumping duty deposit rates for firms that have not had a deposit rate established for them in subsequent reviews.

Accordingly, the Department will determine and the Customs Service will assess appropriate antidumping duties on entries of the subject merchandise made by firms covered by this review of the period November 11, 1988 through April 30, 1990. Individual differences between United States price and foreign market value may vary from the percentages listed above. Where the Department has not already issued appraisement instructions to the Customs Service, it will do so after publication of these amended final results of reviews
