

**SUMMARY:** EPA today announces the allocation of allowances to small diesel refineries for desulfurization of fuel during 1996. The eligibility for and calculation of allowances to small diesel refineries is in accordance with Section 410(h) of the Clean Air Act, implemented at 40 CFR Part 73, subpart G.

**FOR FURTHER INFORMATION CONTACT:** Kathy Barylski, EPA Acid Rain Division (6204J), 401 M St., SW, Washington DC; telephone (202) 233-9074. Information is also available through the Acid Rain Division website at <http://www.epa.gov/acidrain>.

**SUPPLEMENTARY INFORMATION:** EPA's Acid Rain Program was established by Title IV of the Clean Air Act Amendments of 1990 (CAAA) to reduce acid rain in the continental United States. The Acid Rain Program will achieve a 50 percent reduction in sulfur dioxide (SO<sub>2</sub>) emissions from utility units. The SO<sub>2</sub> reduction program is a flexible market-based approach to environmental management. As part of this approach, EPA allocates "allowances" to affected utility units. Each allowance is a limited authorization to emit up to one ton of SO<sub>2</sub>. At the end of each calendar year, each unit must hold allowances in an amount equal to or greater than its SO<sub>2</sub> emissions for the year. Allowances may be bought, sold, or transferred between utilities and other interested parties. Those utility units whose annual emissions are likely to exceed their allocations may install control technologies or switch to cleaner fuels to reduce SO<sub>2</sub> emissions or buy additional allowances.

Section 410(h) of the Clean Air Act provides allowances for small diesel refineries that desulfurize diesel fuel from October 1, 1993 through December 31, 1999. Small refineries are not otherwise affected by the Acid Rain Program and do not need the allowances to comply with any provision of the Clean Air Act. Thus, the allowances serve as a financial benefit to small diesel refineries desulfurizing diesel fuel.

The following table lists allowances to be allocated to eligible refineries for desulfurization of diesel fuel during calendar year 1996.

Requests for allowances for desulfurization during 1997 are due no later than April 1, 1998. Allowances allocated in 1998 will have a compliance year of 1998.

**(3) Iron and Steel Sector Subcommittee—July 23 and 24, 1997**

Notice is hereby given that the Environmental Protection Agency will hold an open meeting of the Iron and Steel Sector Subcommittee on Wednesday, July 23, 1997, from 10:00 a.m. EDT until 5:00 p.m. EDT and on Thursday, July 24, 1997, from 8:00 a.m. EDT until 4:00 p.m. EDT. The meeting will be held at the Ramada Plaza Pentagon Hotel, 4641 Kenmore Avenue, Alexandria, Virginia. The telephone number is (703) 751-4510. At its March 1997 meeting, the Subcommittee discussed the development of a work plan for the next year and decided that prior to making any decisions, it needed to have a better picture of the industry today and a vision of the industry's future. It formed three temporary task groups and charged them with developing a baseline picture of the industry and its major problems, developing objectives for the work plan, and with examining

the current regulatory scheme. At the July meeting, the Subcommittee will review the reports of each of the three task groups, hear a panel discussion about the economic environment in which the industry operates, and develop its work plan and projects to be carried out. Additionally, it will establish appropriate task forces to carry out the work plan, discuss with the Office of Enforcement and Compliance Assurance the results of the study describing the nature on compliance problems in the industry, and have status reports on the few on-going projects which the Subcommittee is overseeing (Brownsfields, Iron and Steel Web Site, Community Advisory Committee, Consolidated Reporting, and Alternative Compliance Strategy). Several hours will also be devoted to allowing the newly formed task forces time to organize and begin work on the identified projects.

For further information concerning this meeting of the Iron and Steel Sector Subcommittee, please contact Ms. Judith Hecht, alternate DFO, at EPA on (202) 260-5682 in Washington, DC or Bob Tolpa, at EPA Region 5 in Chicago on (312) 886-6706, or Dr. Mahesh Podar, DFO, at EPA on (202) 260-5711.
