Fish and Wildlife Service

Notice of Availability of a Draft Environmental Impact Statement (DEIS) for Grizzly Bear Recovery in the Bitterroot Ecosystem

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability.

SUMMARY: To further the recovery of the grizzly bear (*Ursus arctos horribilis*), the Fish and Wildlife Service announces the availability of the DEIS for Grizzly Bear Recovery in the Bitterroot Ecosystem (BE). The DEIS evaluates a proposal to establish an experimental population rule and reintroduce grizzly bears into the Bitterroot Ecosystem in east central Idaho and western Montana. The proposed rule to establish the nonessential experimental population is published elsewhere in this **Federal Register**. Four alternatives, including the No Action Alternative, are discussed in the DEIS.

The BE consists of approximately 44,400 square miles in 10 central Idaho and four western Montana counties, of which 76 percent is in Federal surface ownership. A Citizen Management Committee would be delegated management implementation responsibility for the experimental population. Reintroduction could result in grizzly bear recovery in the BE in a minimum of 50 years. A recovered grizzly bear population (approximately 280 bears) would kill about 6 cattle and 22 sheep and up to 504 wild ungulates per year. Nuisance bear incidents could average 59 per year. Economic analyses indicate grizzly bear recovery in the BE would lead to total net economic benefits of \$40.4 to \$60.6 million per year.

DATES: Copies of the DEIS will be mailed to interested parties on the mailing list on July 1, 1997, and the proposed rule to establish the nonessential experimental population is published elsewhere in this **Federal**

Register. Those interested persons not on the DEIS mailing list may request a copy from the project leader at the address below. It is anticipated that the Environmental Protection Agency will publish a notice on this DEIS in the **Federal Register** on July 11, 1997, which will start a 90-day review period. Public comment on the DEIS is solicited pursuant to the National Environmental Policy Act regulations (40 CFR 1503.1). All agencies and individuals are urged to provide comments and suggestions for improving the DEIS and the proposed experimental population rule. All comments received by October 9, 1997, will be considered in preparation of the Final EIS and rule.

Public hearings on the DEIS will be scheduled at a later date for the cities of Boise, Lewiston, and Salmon, Idaho; and Helena, Missoula, and Hamilton, Montana. The location, dates and times of these hearings will be announced in the **Federal Register** at least 15 days prior to the first hearing, and in local newspapers.

ADDRESSES: Written comments should be addressed to Dr. Christopher Servheen, U.S. Fish and Wildlife Service Project Leader, Bitterroot Grizzly Bear EIS, P.O. Box 5127, Missoula, Montana 59806.

FOR FURTHER INFORMATION CONTACT: Dr. Christopher Servheen, Grizzly Bear Recovery Coordinator (see **ADDRESSES** above), at telephone (406) 243-4903.

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: June 25, 1997.

Deputy Regional Director, Denver Colorado.
