

includes the individual employer employment and wages data along with associated business identification information that is maintained by each State to administer the UI program as well as the UCFE program.

For employers having only a single physical location (worksites) in the State and, thus, operating under a single assigned industrial and geographical code, the data from the States' UI accounting file are sufficient for statistical purposes. Such data, however, are inadequate for statistical purposes for those employers having multiple establishments or engaged in different industrial activities within the State. In such cases, the employer's Quarterly Contributions Report reflects only Statewide employment and wages and is not disaggregated by establishment or worksite. Although this level of data is sufficient for many purposes of the UI Program, more detailed information is required to create a sampling frame and meet the needs of several ongoing Federal/State statistical programs. As a result of the Multiple Worksite Report, improved establishment business identification data elements have been incorporated into and maintained on the Business Establishment List. Establishment identification data elements that are included in the Business Establishment List are a physical location address, secondary name (division, trade name, subsidiary, etc.), and reporting unit description (store number, plant name or number, etc.) for each worksite of multi-establishment employers.

Employers with more than one establishment reporting under the same UI account number within a State are requested to complete the Multiple Worksite Report if the sum of the employment in all of their secondary establishments is ten or greater. The primary worksite is defined as the establishment with the greatest number of employees. Upon receipt of the first Multiple Worksite Report form, each employer is requested to supply business location identification information. Thereafter, this reported information is computer-printed on the Multiple Worksite Report each quarter. The employer is requested to verify the accuracy of this business identification information and only provide the employment and wages for each worksite for the quarter. By using a standardized form, the reporting burden on many large employers, especially those engaged in multiple economic activities at various locations across numerous States, has been reduced.

Comparable to the Multiple Worksite Report, the function of the Report of

Federal Employment and Wages is to collect employment and wage data for each installation of a Federal agency. The Report of Federal Employment and Wages aids in the development and maintenance of business identification information by installation. The Report of Federal Employment and Wages was modeled after the Multiple Worksite Report and is used only to collect data from Federal agencies covered by the Unemployment Compensation for Federal Employees (UCFE) program.

MERIT SYSTEMS PROTECTION BOARD

Appointment of Members to the Performance Review Board

AGENCY: Merit Systems Protection Board.

ACTION: Notice of appointment of members to the Performance Review Board.

SUMMARY: This notice publishes the names of the new and current members of the Performance Review Board as required by 5 U.S.C. 4314(c)(4).

Lonnie L. Crawford will continue as Chairman of the Performance Review Board. John Seal has been appointed as a new member. In addition, Mary L. Jennings, Denis Marachi, Darrell L. Netherton, and Gary Davis will continue to serve on the PRB.

EFFECTIVE DATES: July 1, 1997.

FOR FURTHER INFORMATION CONTACT: Marsha Scialdo Boyd, Director, Human Resources Management Division, U.S. Merit Systems Protection Board, 1120 Vermont Avenue, NW., Washington, DC 20419.

Dated: June 25, 1997.

Robert E. Taylor,

Clerk of the Board.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (97-089)]

Government-Owned Inventions, Available for Licensing

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of availability of inventions for licensing.

SUMMARY: The inventions listed below are assigned to the National Aeronautics

and Space Administration, have been filed in the United States Patent and Trademark Office, and are available for licensing.

DATES: July 1, 1997.

FOR FURTHER INFORMATION CONTACT: Thomas H. Jones, Patent Counsel, NASA Management Office-JPL, 4800 Oak Grove Drive, Mail Stop 180-801, Pasadena, CA 91109; telephone (818) 354-5179.

NASA Case No. NPO-19418-2-CU:

Modulated Source Interferometry; NASA Case No. NPO-20095-1-CU: Priority Queues for Computer Simulations;

NASA Case No. NPO-19769-1-CU: Automated Inventory and Asset Tracking and Monitoring System

Dated: June 16, 1997.

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-7102]

Consideration of License Renewal Request for the Shieldalloy Metallurgical Corporation Facility in Newfield, NJ, and Opportunity for Hearing

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of consideration of license renewal request for the Shieldalloy Metallurgical Corporation facility in Newfield, New Jersey and opportunity for hearing.

The U.S. Nuclear Regulatory Commission is considering renewal of Source Material License SMB-743 (SMB-743), issued to Shieldalloy Metallurgical Corporation, (the licensee) for continued operation of its processing facility in Newfield, New Jersey. The facility processes a mineral concentrate (pyrochlore) to recover niobium. However, the pyrochlore also contains, by weight, more than 0.05 percent natural uranium and thorium, which are source materials and require an NRC license under 10 CFR part 40. During the manufacturing process, the radioactive materials are concentrated in a high temperature slag and bag house dust which are stored on-site. The licensee originally requested renewal of its license on June 19, 1985, and subsequently revised its application by letter dated September 15, 1995.

Prior to approving the renewal application, NRC will have made

findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report and an Environmental Assessment. The renewal of the license will be documented in the issuance of a renewed SMB-743 license.

The NRC hereby provides notice that this is a proceeding on an application for renewal of a license falling within the scope of Subpart L. "Informal Hearing Procedures for Adjudication in Materials Licensing Proceedings," of NRC's rules and practice for domestic licensing proceedings in 10 CFR part 2. Pursuant to Section 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a hearing in accordance with § 2.1205(c). A request for a hearing must be filed within thirty (30) days of the date of publication of the **Federal Register** notice.

The request for a hearing must be filed with the Office of the Secretary either:

1. By delivery to the Docketing and Services Branch of the Office of the Secretary at One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738; or

2. By mail or telegram addressed to the Secretary, U.S. Nuclear Regulatory Commission, Washington DC 20555. Attention: Docketing and Services Branch.

In addition to meeting other applicable requirements of 10 CFR Part 2 of the NRC's regulations, a request for a hearing filed by a person other than an applicant must describe in detail:

1. The interest of the requester in the proceeding;
2. How that interest may be affected by the results of the proceeding, including the reasons why the requester should be permitted a hearing, with particular reference to the factors set out in § 2.1205 (g);
3. The requester's concerns in the area of licensing activity that is the subject matter of the proceeding; and
4. The circumstances establishing that the request for a hearing is timely in accordance with § 2.1205 (c).

In accordance with 10 CFR § 2.1205(e), each request for a hearing must also be served, by delivering it personally or by mail to:

1. The applicant, Shieldalloy Metallurgical Corporation to the attention of Mr. Scott Eves, West Boulevard, P.O. Box 768, Newfield, NJ 08344; and
2. The NRC staff, by delivery to the Executive Director for Operations, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852; or by mail

addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Any hearing that is requested and granted will be held in accordance with the NRC's Informal Hearing Procedures for Adjudications in Material Licensing Proceedings in 10 CFR Part 2, Subpart L.

For further details with respect to this action, the licensee's renewal request dated September 15, 1995, and an NRC staff assessment of financial assurance aspects of the renewal (SECY-96-210), dated October 1, 1996, are available for inspection at the NRC's Public Document Room, 2120 L Street N.W., Washington, D.C. 20555. Questions should be referred to NRC's project manager for the Shieldalloy, Newfield facility, Heather Astwood, at (301) 415-5819. License No: SMB-743.

Dated at Rockville, Maryland, this 25th day of June, 1997.

For the Nuclear Regulatory Commission.

Michael F. Weber,

Chief Licensing Branch, Division of Fuel Cycle Safety and Safeguards, NMSS

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-206, 50-361 AND 50-362]

Southern California Edison Company; San Diego Gas and Electric Company; the City of Riverside, CA; the City of Anaheim, CA; San Onofre Nuclear Generating Station, Unit Nos. 1, 2 and 3; Consideration of Corporate Restructuring

Notice is hereby given that the United States Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving an application concerning the proposed corporate restructuring of Enova Corporation, parent company for San Diego Gas & Electric Company (SDG&E), one of the co-owners of the San Onofre Nuclear Generating Station, Units 1, 2 and 3, along with Southern California Edison Company, The City of Riverside, California, and The City of Anaheim, California. By letter dated December 2, 1996, SDGE, through Richard A. Meserve of Covington & Burling, counsel for SDG&E, informed the Commission of a proposed corporate restructuring of SDG&E's parent company, Enova Corporation, whereby Enova would combine with Pacific Enterprises, with each becoming a subsidiary of a newly created holding company, Mineral Energy Company (New Holding Company). SDG&E will remain a subsidiary of Enova. SDG&E will remain co-holder of licenses for San

Onofre Units 1, 2 and 3. Under the restructuring, SDG&E's preferred stock and debt will not be affected and will remain securities and obligations of SDG&E. After the restructuring, SDG&E will continue to be a public utility providing the same utility services as it did immediately prior to the reorganization. According to the proposed plan, there will be no significant change in ownership, management, or sources of funds for operation, maintenance, or decommissioning of the San Onofre power stations due to the corporate restructuring.

Pursuant to 10 CFR 50.80, the Commission may approve the transfer of control of a license after notice to interested persons. Such approval is contingent upon the Commission's determination that the holder of the license following the transfer is qualified to hold the license and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders of the Commission.

For further details with respect to this proposed action, see the letter dated December 2, 1996 by Richard A. Meserve of Covington & Burling. This document is available for public inspection at the Commission's Public Document Room, 2120 L Street, N.W., Washington, DC, and at the local public document room located at the Main Library, University of California, Irvine, California.

Dated at Rockville, Maryland, this 19th day of June 1997.

Mel B. Fields,

Project Manager, Project Directorate IV-2, Division of Reactor Projects III/IV, Office of Nuclear Reactor Regulation.
