SUPPLEMENTARY INFORMATION:

OMB Approval No.: 3060-0319.

Title: Application for Assignment of Authorization or Consent to Transfer of Control of Licensee.

Form No.: FCC 490.

Type of Review: Revision of an existing collection.

Respondents: Businesses or other for profit.

Number of Respondents: 28,500.

Estimate Hour Per Response: .5–3 hours per respondent. The Commission estimates 75% of the respondents will hire a consultant to prepare the required information. The estimated time for coordinating with these consultants is 30 minutes per respondent. The estimated time for the remaining 25% of the respondents to complete the collection is 3 hours per response.

Total Annual Burden: 32,063 hours.

Estimated Total Annual Costs: \$14,125,312. This estimate includes costs incurred by 75% of the respondents hiring consultant to prepare the required information. The estimated costs for hiring these consultants is \$200 per hour. This total also includes a \$45 filing fee per respondent.

Needs and Uses: FCC Form 490 is filed to solicit Commission approval to assign a radio station authorization to another party or to transfer control of a licensee. The requested information is used by the Commission in carrying out its duties set forth in sections 308, 298 and 310 of the Communications Act. This collection is being revised to account for the changes proposed in the Fifth Notice of Proposed Rulemaking, Use of the 220–222 MHz Band by the Private Land Mobile Radio Service, the Commission concluded that any holder of a Phase II EA, Regional or nationwide 220 MHz license will be permitted to partition portions of its authorization.

In this collection the Commission is also requesting generic approval from OMB to use this form in future disaggregation and partitioning for a variety of spectrum based services licensed by the Commission. Specific Rules will be adopted in Reports and Orders or by Public Notice for each service subject to disaggregation and partitioning. Please note the burden in this notice differs from the burden in the notice published 62 FR 17815, April 11, 1997. The Commission inadvertently calculated the earlier burden without including estimates for respondents hiring consultants.

Estimate Hour Per Response: .5–2 hours per respondent. The Commission

estimates 75% of the respondents will hire a consultant to prepare the required information. The estimated time for coordinating with these consultants is 30 minutes per respondent. The estimated time for the remaining 25% of the respondents to complete the collection is 2 hours per response.

If the information is not collected, the Commission would be unable to fulfill its responsibilities under the Communications Act to make a finding as to the legal qualifications of an applicant or licensee. To reduce paperwork applicants may submit letters in lieu of completing the FCC 430 in those cases in which there has been no change to any of the required information. This collection is being revised to account for the changes proposed in the Fifth Notice of Proposed Rulemaking, Use of the 220–222 MHz Band by the Private Land Mobile Radio Service, the Commission concluded that any holder of a Phase II EA, Regional or nationwide 220 MHz license will be permitted to partition portions of its authorization.

In this collection the Commission is also requesting generic approval from OMB to use this form in future disaggregation and partitioning for a variety of spectrum based services licensed by the Commission. Specific Rules will be adopted in Reports and Orders or by Public Notice for each service subject to disaggregation and partitioning.

Please note the burden in this notice differs from the burden in the notice published 62 FR 17815, April 11, 1997. The Commission inadvertently calculated the earlier burden without including estimates for respondents hiring consultants.
