

more time to respond to the PK proposals and to finalize the test guidelines to be referenced in the proposed HAPs test rule.

The proposed HAPs rule published on June 26, 1996 (61 FR 33178) provides that testing would be conducted using the harmonized guidelines developed by the Office of Prevention, Pesticides and Toxic Substances (OPPTS) that were published as public drafts on June 20, 1996 (61 FR 31522)(FRL-5367-7). The process of developing these harmonized guidelines is proceeding at the same time as the development of the HAPs test rule. For the purposes of the proposed HAPs test rule and testing under TSCA section 4(a), the Office of Pollution Prevention and Toxics (OPPT) intends to publish final TSCA test guidelines developed from the OPPTS harmonized guidelines. The Agency will solicit public comment on the applicability of the test guidelines as they are cross-referenced in the HAPs rule and will follow this practice with respect to all future TSCA section 4(a) test rules. These guidelines will be published in the **Federal Register** as soon as possible but in any event no later than August 29, 1997.

EPA has developed preliminary technical analyses of three PK proposals (hydrogen fluoride, 1,1,2-trichloroethane, and ethylene dichloride). Copies of these preliminary technical analyses have been sent to the submitters and placed in the public record for this action (OPPTS-42187B, FRL-4869-1). The Agency intends to provide comments to the submitters of the other PK proposals as soon as possible but in any event prior to the close of the comment period. EPA also recognizes that submitters may need to revise their proposals based on EPA comments. EPA finds that the public should have adequate opportunity to comment on the development of ECAs based on the PK proposals. If the Agency decides to proceed with the ECA process, EPA will announce, in the **Federal Register**, one or more public meetings to discuss the proposals and to negotiate ECAs based on the proposals. In that document, the Agency will solicit persons interested in participating in or monitoring negotiations for the development of ECAs based on the revised PK testing proposals. The procedures for ECA negotiations are described at 40 CFR 790.22(b).

The Agency emphasizes that the submission of proposals to develop ECAs to conduct alternative testing using PK is no guarantee that EPA and the submitters will, in fact, conclude such agreements. Therefore, EPA urges all submitters of PK proposals to

comment on the HAPs proposed rule as an activity separate from the PK proposal/ECA process.

## II. Public Record

The official record for this rulemaking, as well as the public version, has been established for this rulemaking under docket control number [OPPTS-42187A; FRL-4869-1] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 12 noon to 4 p.m., Monday through Friday, excluding legal holidays. The official rulemaking record is located at the address in "ADDRESSES" at the beginning of this document.

Electronic comments can be sent directly to EPA at:

oppt.ncic@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket control number [OPPTS-42187A; FRL-4869-1]. Electronic comments on the proposed rule may be filed online at many Federal Depository Libraries.

### List of Subjects in 40 CFR Part 799

Environmental protection, Chemicals, Hazardous substances, Reporting and recordkeeping requirements.

Dated: July 9, 1997.

**Charles M. Auer,**

*Director, Chemical Control Division, Office of Pollution Prevention and Toxics.*

Accordingly, EPA is extending the comment period on the proposed rule to September 30, 1997.

BILLING CODE 6560-50-F

## FEDERAL EMERGENCY MANAGEMENT AGENCY

### 44 CFR Part 67

[Docket No. FEMA-7223]

### Proposed Flood Elevation Determinations

**AGENCY:** Federal Emergency Management Agency, FEMA.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

**ADDRESSES:** The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

**FOR FURTHER INFORMATION CONTACT:** Frederick H. Sharrocks, Jr., Chief, Hazard Identification Branch, Mitigation Directorate, 500 C Street SW., Washington, DC 20472, (202) 646-2796.

**SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

### National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

**Regulatory Flexibility Act**

The Executive Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the National Flood Insurance Program. As a result, a regulatory flexibility analysis has not been prepared.

**Regulatory Classification**

This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of

September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

**Executive Order 12612, Federalism**

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

**Executive Order 12778, Civil Justice Reform**

This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

**List of Subjects in 44 CFR Part 67**

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

**PART 67—[AMENDED]**

1. The authority citation for part 67 continues to read as follows:

**Authority:** 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

**§ 67.4 [Amended]**

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

| State         | City/town/county                | Source of flooding    | Location                               | # Depth in feet above ground. *Elevation in feet (NGVD) |          |

 BILLING CODE 6718-04-P

and National Aeronautics and Space Administration (NASA).  
**ACTION:** Proposed rule—extension of comment period.

**SUMMARY:** The public comment period on this proposed rule, which was published in the **Federal Register** at 62 FR 25786, May 9, 1997, is extended from July 8, 1997, through August 8, 1997. The rule conforms to a Department of Justice proposal to reform affirmative action in Federal procurement. The comment period is extended in order to accommodate public requests for an extension.  
**DATES:** Comments on the proposed rule should be submitted in writing to the FAR Secretariat at the address shown below on or before August 8, 1997.  
**ADDRESSES:** Submit written comments to: General Services Administration, FAR Secretariat (MVR), 1800 F Street, NW., Room 4035, Washington, DC 20405.

E-mail comments submitted over Internet should be addressed to farcase.97-004@gsa.gov. Please cite FAR case 97-004 in all correspondence related to this case.

**FOR FURTHER INFORMATION CONTACT:**
