Lodging of Consent Decree Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as Amended

In accordance with Departmental policy, 28 CFR 50.7 and pursuant to Section 122 of the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. 9622, notice is hereby given that proposed Consent Decrees in *United States v. Mary Ruth Smith, et al.*, Civil Action No. C90-0232-L(R), were lodged on August 5, 1997, with the United States District Court for the Western District of Kentucky.

This case concerns the Smith Farm Superfund Site, located in Bullitt County, in Kentucky (the "Site"). The Environmental Protection Agency ("EPA") divided the Site into two Operable Units ("OUs") to simplify the remediation at both an unpermitted disposal area (OU 1) and a former landfill disposal area (OU 2). EPA issued a Record of Decision ("ROD") for OU 1 on September 29, 1989, and amended the ROD on September 30, 1991. EPA issued the ROD for OU 2 on September 17, 1993. The selected remedy at the Site for both OUs is the installation of a landfill cap and a leachate collection system. EPA estimates the remedy to cost approximately \$38 million. The United States has incurred approximately \$5 million in past response costs. EPA estimates that the total Site costs are \$43 million.

Under the decrees, Ford Motor Company agrees to undertake all remedial work necessary at the Site, while ultimately being responsible for 54.5% of the actual Site costs, and nine other major parties (Akzo Nobel Coatings, Inc.; The B.F. Goodrich Company; General Electric Company; Hoechst Celanese Corporation; Jim Beam Brands Company; Navistar International Transportation Corporation; Rohm and Haas Kentucky Incorporated; Safety Kleen EnviroSystems Company; and Waste Management of Kentucky, LLC.) agree to a "cashout" settlement representing 41% of the \$43 million estimated overall Site response costs and fund or perform 41% of any future work.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed Consent Decree. Comments should be addressed to the Assistant Attorney General for the Environment and
