Iroquois Gas Transmission System, L.P.; Notice of Proposed Changes in FERC Gas Tariff

August 21, 1997.

Take notice that on August 18, 1997, Iroquois Gas Transmission System, L.P. (Iroquois) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheet to become effective September 17, 1997:

Third Revised Sheet No. 38

Iroquois states that this sheet was submitted in compliance with the provisions of the Commission's August 6, 1997 Order On Rehearing, 80 FERC ¶ 61,213 (August 6, 1997) (Order). In its Order, the Commission denied the request for rehearing of Long Island Lighting Company and the Brooklyn Union Gas Company except to the limited extent of ruling that Iroquois should credit net cash-out proceeds received by Iroquois pursuant to Sections 6.2 and 6.3 of its PAL (Park and Loan) Rate Schedule to firm transportation customers. The tariff

sheet included herewith reflects the inclusion of a new provision consistent with the Commission's ruling.

Iroquois also states that copies of this filing were served upon all customers and interested state regulatory agencies.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Lakehead Pipe Line Company Limited Partnership; Notice of Petition for Declaratory Order

August 21, 1997.

Take notice that on August 12, 1997, pursuant to Rule 207 of the Commission's Rules of Practice and Procedure, 18 CFR 385.207, and Section 15(13) of the Interstate Commerce Act (ICA), Lakehead Pipe Line Company, Limited Partnership (Lakehead), filed a petition with the Commission for a declaratory order authorizing Lakehead to disclose on a limited basis certain information regarding shipments of natural gas liquids (NGL) through its system.

Lakehead states that the purpose of this disclosure is to facilitate provision of NGL transportation service to multiple shippers in keeping with orders issued by this Commission and the National Energy Board of Canada (NEB).

Lakehead states that it and Interprovincial Pipe Line Inc. (IPL) (which delivers natural gas liquids to Lakehead) anticipate that more complicated patterns of receipt and delivery will soon develop, such that their current tracking system will not be sufficient to take into account differences in quality and composition

among the various NGL streams being tendered for shipment. In particular, it may in the near future be necessary for Lakehead to begin measuring and tracking NGL components delivered out of its system at intermediate destinations, and the results of those measurements would be made available to IPL for disclosure to the respective NGL shippers.

Lakehead states that the difficulty this poses for Lakehead relates to the provision of the ICA that makes unauthorized disclosure of shipper information unlawful in certain circumstances. 49 U.S.C. app. section 15(13) (1988). Lakehead is concerned that its participation in any system of component tracking or component balancing requiring disclosure of the composition of a shipper's NGL stream could subject it to civil, and possibly criminal, liability under ICA section 15(13). At the same time, Lakehead states that a component balancing or component tracking system that does not take account of the U.S. destination points on the Lakehead system would likely be ineffective in many circumstances as a means of keeping the NGL shippers whole. Accordingly, Lakehead submits this petition to seek the Commission's authorization for the necessary disclosures to permit IPL and Lakehead to implement a workable component balancing or component tracking system.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before September 5, 1997. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make Protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
