BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP96-809-000, et al. and CP96-810-000]

Maritimes & Northeast Pipeline, L.L.C.; Notice of Amended Route by Maritimes & Northeast Pipeline, L.L.C. to be Included in the Environmental Impact Statement for the Proposed Maritimes Phase II Project and Second Request for Comments on Environmental Issues

August 22, 1997.

The purpose of this second notice of intent (NOI) to prepare an Environmental Impact Statement (EIS) is to inform the public of amended pipeline routes that will be analyzed in the EIS and to request comments on the current route. We are issuing this NOI to avoid any confusion over the currently proposed route of the Maritimes Phase II Project.

On July 11, 1997, Maritimes & Northeast Pipeline, L.L.C. (Maritimes) amended its application to reflect reroutes along 104 miles of its proposed mainline and 40 miles of its lateral

facilities and the relocation of one of the compressor stations. Maritimes states that these reroutes were identified as a result of efforts to address and resolve concerns and comments from landowners and others. Appendix 1 lists the proposed facilities by county; appendix 2 includes a general location map and detailed maps showing the location of the original route and the currently proposed route (labeled as the "PRIMARY ROUTE") and alternate routes.¹

Background

On May 16, 1997, we issued our first NOI stating that the staff of the Federal Energy Regulatory Commission (FERC or Commission) is preparing an environmental impact statement (EIS) that will discuss the environmental impacts of the Maritimes Phase II Project. The project now involves construction and operation, in Maine, of about 346.1 miles of natural gas pipeline and compression.² The facilities consist of 198.7 miles of 24- and 30-inch-diameter mainline between Westbrook and the Canadian border near Woodland (Baileysville), Maine; 147.4 miles of 4- to 16-inch-diameter laterals, 31,160 horsepower (hp) of compression at two new compressor stations, 12 new meter stations, and 35 block valves. This EIS will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

Summary of Proposed Route Changes

Maritimes identified reroutes along about 53 percent of the mainline and 27 percent of the laterals. The most significant changes include those at:

- Mainline mileposts (MP) 138.0 to 151.0 in the towns of Bowdoinham, Richmond, and Pittston in Sagadahoc and Kennebec Counties, including the relocation of the Richmond Compressor Station from Beedle to Pitts Road (Mainline MP 143.0R);
- Mainline MPs 217.3 to 236.5 in the towns of Bucksport, Holden, Clifton, and Mariaville in Hancock and Penobscot Counties;
- Mainline MPs 247.7 to 290.7 in unnamed townships in Hancock and Washington Counties;

¹ The appendices referenced in this notice are not being printed in the **Federal Register**. Copies are available from the Commission's Public Reference and Files Maintenance Branch, 888 First Street, NE., Washington, DC 20426, or call (202) 208-1371. Copies of the appendices were sent to all those receiving this notice in the mail.

² Maritimes & Northeast Pipeline, L.L.C.'s application was filed with the Commission under Section 7 of the Natural Gas Act and Part 157 of the Commission's regulations.
