The proposed facilities will be used to provide delivery of transportation service gas to Bear Paw Energy, Inc. (Bear Paw). Williston Basin states that Bear Paw has requested installation of this metering facility to allow Williston Basin to make deliveries of up to 714 Mcf per day to be used to fuel a field compressor. The facilities to be constructed at the proposed metering facility will consist of a meter, regulator and miscellaneous piping, gauges and valves, all of which will be enclosed within a small pipe fence. The addition of the proposed facilities will have no significant effect on Williston Basin's peak day or annual requirements and the total volumes delivered will not exceed total volumes authorized prior to this request. Williston Basin also states that its existing tariff does not prohibit the addition of new delivery points and that there is sufficient capacity to accomplish deliveries without detriment or disadvantage to its other customers.
