II. Background

EPA is announcing its policy in a PR Notice entitled "Existing Stocks for Labeling Changes in PR Notices." This PR Notice describes the Agency's policy to establish an annual date by which registrants will normally implement labeling changes specified in Pesticide Registration (PR) Notices, **Federal Register** Notices, or other documents. The policy outlined in the PR Notice will help streamline the Agency's processing of labeling changes, improve the coordination of EPA's labeling activities, and lessen the economic impact on registrants and supplemental distributors of making labeling changes throughout the year. The annual compliance date generally provides more time for registrants and supplemental distributors to distribute or sell products bearing old labeling than under EPA's current Existing Stocks Policy. The Agency has determined that generally it will not set a compliance date for persons other than registrants and supplemental distributors to comply with labeling changes specified in PR Notices and similar notices, so that "old" labels in channels of trade are distributed or sold until supplies are exhausted. Further, the Agency has determined that the existing stocks provisions will normally

be based on the "released for shipment" date. EPA will generally follow these policies unless different measures are necessary to protect human health and the environment, or it is otherwise in the public interest.

W. Neudorff GmbH KG; Approval of a Pesticide Product Registration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces Agency approval of an application to register the pesticide product NEU 1165M Slug and Snail Bait, containing an active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(5) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: By mail: Sheryl Reilly, Biopesticides and Pollution Prevention Division (7511W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. CS #1, 5th floor, Westfield Building North Tower, 2800 Crystal Drive, Arlington, VA 22202, (703) 308-8265; e-mail: reilly.sheryl@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

Electronic Availability: Electronic copies of this document and the Fact Sheet are available from the EPA home page at the **Federal Register**-Environmental Documents entry for this document under "Regulations" (<http://www.epa.gov/fedrgstr/>).

EPA issued a notice, published in the **Federal Register** of January 22, 1997 (62 FR 3287; FRL-5582-4), which announced that W. Neudorff GmbH KG, Postfach 1209, and der Muhle 3, D-31860 Emmertal, Germany, had submitted an application to register the product NEU 1165M Slug and Snail Bait (EPA File Symbol 67702-G), containing the new active ingredient iron phosphate at 1.0 percent, an active ingredient not included in any previously registered product.

The application was approved on August 14, 1997, as NEU 1165M Slug and Snail Bait for domestic/non-commercial food use on vegetable gardens, fruits (including citrus), and berries; also for outdoor ornamentals, greenhouses, and lawns (EPA Registration Number 67702-3).

The Agency has considered all required data on risks associated with the proposed use of iron phosphate, and information on social, economic, and

environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of iron phosphate when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

More detailed information on this registration is contained in an EPA Pesticide Fact Sheet on iron phosphate.

A copy of this fact sheet, which provides a summary description of the pesticides, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Information and Records Integrity Branch, Information Resources and Services Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.
