

exposure above applicable guidelines established to protect members of the general public or site occupants. Accordingly, the properties specified below are released from DOE's Environmental Restoration Program.

Property owned by the University of California:

Animal Hospital No. 1 (H-219), Animal Hospital No. 2 (H-218), Specimen Storage building (H-216), and the Cobalt-60 building (H-290) located at the Laboratory for Energy-Related Health Research at Davis, Solano County, California in the southeast quarter of Section 21, Township 8 North, Range 2 East, Mount Diablo Base and Meridian.

Issued in Washington, D.C. on September 22, 1997.

James J. Fiore,

Acting Deputy Assistant Secretary for Environmental Restoration.

Statement of Certification: Laboratory for Energy-Related Health Research, Animal Hospital No. 1, Animal Hospital No. 2, Specimen Storage Building, and the Cobalt-60 Building

The U.S. Department of Energy, Oakland Operations Office, Environmental Restoration Division, has reviewed and analyzed the radiological data obtained following decontamination and decommissioning of Animal Hospital No. 1, Animal Hospital No. 2, Specimen Storage Building, and the Cobalt-60 Building at the Laboratory for Energy-Related Health Research. Based on analysis of all data collected and the results of independent verification, DOE certifies that the following property is in compliance with DOE radiological decontamination criteria and standards as established in DOE Order 5400.5. This certification of compliance provides assurance that future use of the property will result in no radiological exposure above applicable guidelines established to protect members of the general public or site occupants.

Property owned by the University of California:

Animal Hospital No. 1 (H-219), Animal Hospital No. 2 (H-218), Specimen Storage Building (H-216), and the Cobalt-60 Building (H-290) located at the Laboratory for Energy-Related Health Research at Davis, Solano County, California, in the southeast quarter of Section 21, Township 8 North, Range 2 East, Mount Diablo Base and Meridian.

Dated: July 22, 1997.

Roger Liddle,

Director, Environmental Restoration Division, Oakland Operations Office, U.S. Department of Energy.

Federal Energy Regulatory Commission

[Docket No. CP97-765-000]

ANR Pipeline Company; Notice of Application

September 29, 1997.

Take notice that on September 22, 1997, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP97-765-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity to construct and operate mainline looping and measurement facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

ANR states that the proposed 11.4 miles of 30-inch mainline looping, located upstream of ANR's existing Kewaskum, Wisconsin, compressor station, and new meter station, located on ANR's existing Racine lateral pipeline, are designed to increase transmission capacity by 116 MMcf per day and thereby enable ANR to provide additional firm transportation service to subscribing shippers in the Wisconsin market area of ANR's system.

ANR states that it held an open season wherein a number of shippers expressed an interest in receiving firm transportation service on ANR, from various existing and proposed pipeline interconnection points located within the vicinity of the newly emerging Chicago gas hub, to delivery points located within the State of Wisconsin. ANR states that those shippers have received approval of their requests for service and some have entered into precedent agreements with ANR for new services that will utilize all of the new capacity proposed herein.

ANR states that it will provide the service under Part 284 of the Commission's regulations and charge the subscribing shippers rates that do not exceed the currently effective Mainline Area rates for firm services under its existing Second Revised Volume No. 1 of its FERC Gas Tariff.

ANR estimates the construction cost of the proposed facilities to be \$23.6

million, which will be financed from internally generated funds.

ANR requests a Preliminary Determination on non-environmental issues by January 1, 1998, with final approval by June 15, 1998, so that the proposed facilities can be placed in service by the 1998/1999 heating season.

ANR requests that the Commission issue a predetermination that rolled-in rates are appropriate for the proposed facilities, maintaining that rate impact on existing customers will be no greater than 0.5 percent. ANR further maintains that installation of looping on its mainline trunk facilities will enhance stability and security of firm service, in addition to providing increased outage protection, for all shippers utilizing that portion of ANR's system.

Any person desiring to participate in the hearing process or to make any protest with reference to said application should on or before October 20, 1997, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protest filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by every one of the intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, and intervenor must submit copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of comments to the Secretary of the Commission.

Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents and will be able to participate in meetings associated with the Commission's environmental review process.

Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek rehearing or appeal the Commission's final order to a federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenors status.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for ANR to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.

[Docket No. RP97-535-000]

MIGC, Inc., Notice of Proposed Changes in FERC Gas Tariff

September 29, 1997.

Take notice that on September 24, 1997, MIGC, Inc. (MIGC) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, First Revised Sheet No. 37, with an effective date of November 1, 1997.

MIGC states that the filing is being filed pursuant to Subpart C of Part 154 of the Federal Energy Regulatory Commission's Regulations Under the Natural Gas Act and Order No. 636-C issued February 27, 1997 at Docket Nos. RM91-11-006 and RM87-34-072 (Order No. 636-C)

MIGC states that this tariff sheet revises the Right-of-First Refusal provision to provide for a five year maximum term for bid evaluations.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. RP97-526-001]

Mississippi River Transmission Corporation; Notice of Proposed Changes in FERC Gas Tariff

September 29, 1997.

Take notice that on September 24, 1997, Mississippi River Transmission Corporation (MRT) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, Substitute Third Revised Sheet No. 9, with a proposed effective date of October 12, 1997.

MRT states that the purpose of this filing is to adjust and reduce the Account No. 191 amounts MRT requested authority to direct bill its former Rate Schedule CD-1 and SGS-1 customers as a result of additional prior period adjustments to MRT's Account No. 191 balance to remove that percentage of costs attributable to MRT's non-jurisdictional direct industrial sales during the relevant period.

MRT states that copies of its filing have been mailed to all of its customers, including all former Rate Schedule CD-1 and STS-1 customers, and the State Commissions of Arkansas, Illinois, and Missouri.

Any person desiring to protest said filing should file a protest with the

Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules of Practice and Procedure. All such protests should be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and available for public inspection.

PacificCorp; Notice of Filing

September 29, 1997.

Take notice that PacifiCorp on September 4, 1997, tendered for filing a Notice of Termination of Service Agreement No. 6 to PacifiCorp's FERC Electric Tariff, Original Volume No. 5.

Copies of this filing were supplied to the City of Anaheim, the Washington, Utilities and Transportation Commission and the Public Utility Commission of Oregon.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before October 10, 1997. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.
