(3) Promote library services that provide all users access to information through State, regional, national and international electronic networks;

(4) Provide linkages among and between libraries;

(5) Promote targeted library services to people of diverse geographic, cultural, and socioeconomic backgrounds, to individuals with disabilities, and to people with limited functional literacy or information skills.

Under Section 224(a)(2), the State plan shall cover a period of 5 years. Section 224(b) requires that the State plan shall

(1) Establish goals, and specify priorities, for the State consistent with the purposes of the subtitle;

(2) Describe activities that are consistent with the goals and priorities established under paragraph (1), the purposes of this subtitle, and section 231, that the State library administrative agency will carry out during such year using such grant;

(3) Describe the procedures that such agency will use to carry out the activities described in paragraph (2);

(4) Describe the methodology that such agency will use to evaluate the

success of the activities established under paragraph (2) in achieving the goals and meeting the priorities described in paragraph (1);

(5) Describe the procedures that such agency will use to involve libraries and library users throughout the State in policy decisions regarding implementation of this subtitle; and

(6) Provide assurances satisfactory to the Director that such agency will make such reports, in such form and containing such information, as the Director may reasonably require to carry out this subtitle and to determine the extent to which funds provided under this subtitle have been effective in carrying out the purposes of this subtitle.

Section 224(c) requires each State library administrative agency receiving a grant under this subtitle to independently evaluate, and report to the Director regarding, the activities assisted under this subtitle, prior to the end of the 5-year plan.
