

Columbia states that this filing is being submitted pursuant to Article III, Section C, Collections under Section 46 of the General Terms and Conditions of Columbia's Tariff SFC Provision of the Stipulation and Agreement in Docket No. RP95-408, et al., approved by the Commission on April 17, 1997 (79 FERC ¶ 61,044 (1997)). In accordance with this provision, Columbia was permitted to collect \$22.4 million via the SFC rate. As of September 30, 1997, Columbia has collected \$22.9 million of SFC revenues. By this filing, Columbia states that it is proposing to terminate the SFC rate effective October 1, 1997. In addition, Columbia will refund to customers via a billing credit approximately \$0.5 million of collections in the month of September 1997 over the \$22.4 million cap. The total excess collections will be allocated to customers based on total collections during the month of September 1997.

Columbia requests a waiver of Section 154.207 of the Commission's regulations in order to permit Columbia to remove the SFC Rate effective October 1, 1997. Granting this waiver allows Columbia's customers to avoid any additional over-recoveries of SFC revenues.

Columbia states further that copies of this filing have been mailed to all of its customers, affected state regulatory commissions, and all parties on the official service in this proceeding.

Any person desiring to be heard or to protest this filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Eastern Shore Natural Gas Company; Notice of Proposed Changes in FERC Gas Tariff

October 3, 1997.

Take notice that on September 30, 1997, Eastern Shore Natural Gas Company (ESNG) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, certain revised tariff sheets in the above captioned docket, with a proposed effective date of October 1, 1997.

ESNG states the revised tariff sheets are being filed pursuant to Section 21 of the General Terms and Conditions of ESNG's Gas Tariff to reflect changes in ESNG's jurisdictional sales rates. The sales rates set forth on the revised tariff sheets reflect an increase of \$0.9928 per dt in the Commodity Charge, as measured against ESNG's corresponding sales rates in Docket No. TQ97-6-23-000 as filed on June 27, 1997, to be effective August 1, 1997.

The commodity current purchased gas cost adjustment reflects ESNG's projected cost of gas for the month of October, 1997, and has been calculated using its best estimate of available gas supplies to meet ESNG's anticipated purchase requirements. The increased gas costs in this filing are a result of higher prices being paid to producers-marketers under ESNG's market-responsive gas supply contracts.

ESNG states that copies of the filing have been served upon its jurisdictional customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Section 385.211 and Section 385.214 of the Commission's Rules of Practice and Procedure. All such motions or protests must be filed as provided in Section 154.210 of the Regulations.
