I. Background

GTE, One Stamford Forum, Stamford, CT 06904, self-disclosed to EPA that it had failed to prepare SPCC plans for 89 facilities where it stored diesel oil, 88 with above ground and one with below ground tanks, in violation of the CWA and 40 CFR part 112. The disclosures were made pursuant to the EPA “Incentives for Self-Policing: Discovery, Disclosures, Correction and Prevention of Violations” (“the Audit Policy”) (60 FR 66706, December 22, 1995). EPA filed an administrative civil complaint against GTE on September 29, 1997 (in re: GTE Corporation, CWA-97-H-001). The administrative penalty proposed in the complaint is the statutory maximum, \$125,000. EPA intends to settle this action under the Audit Policy. Using the criteria set forth in the policy, EPA intends to waive any gravity based penalty and collect economic benefit enjoyed by the Respondent because of delayed compliance with the SPCC regulations. The proposed settlement figure for this matter is \$16,708. This settlement is subject to public notice and comment under CWA section 311 (33 U.S.C. 1321).

Under CWA section 311(b)(6) (33 U.S.C. 1321(b)(6)), any owner, operator, or person in charge of a vessel, onshore facility, or offshore facility from which oil is discharged in violation of CWA section 311(b)(3) (33 U.S.C. 1321(b)(3)), or who fails or refuses to comply with any regulations that have been issued under CWA section 311(j) (33 U.S.C. 1321(j)) may be administratively assessed a civil penalty of up to \$125,000 by EPA. Class II proceedings under CWA section 311(b)(6) are conducted in accordance with 40 CFR part 22 rules.

The procedures by which the public may submit written comments on a

proposed Class II penalty order or participate in a Class II penalty proceeding are set forth in 40 CFR part 22. The deadline for submitting public comment on a proposed Class II order is November 19, 1997. All comments will be transferred to the Environmental Appeals Board of EPA for consideration and/or incorporation into the final order.

In order to provide opportunity for public comment, EPA will not take final action in this proceeding prior to the close of the public comment period.

The public record for this proceeding (including comments submitted electronically as described below) has been established. A public version of this record, including printed, paper versions of electronic comments is located in the Office of the EPA Headquarters Hearing Clerk, Ms. Bessie Hammel, Rm.
