### Bonneville Power Administration

#### Upper Grande Ronde Supplementation Program

**AGENCY:** Bonneville Power Administration (BPA), Department of Energy (DOE).

**ACTION:** Notice of Floodplain and Wetlands Involvement.

**SUMMARY:** This notice announces BPA's proposal to construct acclimation ponds for the Grande Ronde River spring chinook in floodplain and wetlands located in Union and Wallowa Counties, Oregon. A total of three acclimation sites would be developed in the Upper Grande Ronde River, the Lostine River and Catherine Creek tributaries within the Grande Ronde Subbasin of the Snake River Drainage in northeastern Oregon. It is the intent of the BPA, the Nez Perce Tribe, the Confederated Tribes of the Umatilla Indian Reservation, the Oregon Department of Fish and Wildlife, and the National Marine Fisheries Service to prevent the extinction and restore the population of the spring chinook within the tributaries.

In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements, BPA will prepare a floodplain and wetlands assessment and would perform this proposed action in a manner so as to avoid or minimize potential harm to or within the affected floodplain and wetlands. The assessment will be included in the environmental assessment being prepared for the proposed project in accordance with the requirements of the National Environmental Policy Act. A floodplain statement of findings will be included in any finding of no significant impact that may be issued following the completion of the environmental assessment.

**DATE:** Comments are due to the address below no later than November 7, 1997.

**ADDRESS:** Submit comments to Communications, Bonneville Power Administration—ACS-7, P.O. Box 12999, Portland, Oregon 97212. Internet address: comment@bpa.gov.

**FOR FURTHER INFORMATION, CONTACT:** Kenneth C. Kirkman, EC-4, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon, 97208-3621, phone number 503-230-5557, fax number 503-230-4089.

**SUPPLEMENTARY INFORMATION:** The juvenile spring chinook captive broodstock acclimation facilities most likely would be located on floodplains and/or wetlands because they need to be

constructed close to the stream or river banks to be able to utilize the rivers for a source of flow through water. The acclimation ponds will be constructed of metal and some earth work, cutting and filling, will be required; maybe a total of 140 cubic yards. The acclimation facilities are located at the following sites: (1) the Lostine River at T1S, R43E, Section 27 (Lostine, OR quad); (2) the Catherine Creek at the T5S, R 41E, Section 21 (Medical Springs, OR quad); and (3) the Upper Grande Ronde at T6S, R 36E, Section 5 (Limer Jim Creek, OR quad).

Maps and further information are available from BPA at the address above.

Issued in Portland, Oregon, on October 15, 1997.

### Energy Information Administration

#### Agency Information Collection Under Review by the Office of Management and Budget

**AGENCY:** Energy Information Administration, Department of Energy.  
**ACTION:** Submission for OMB review; comment request.

**SUMMARY:** The Energy Information Administration (EIA) has submitted the energy information collection(s) listed at the end of this notice to the Office of Management and Budget (OMB) for review under provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13). The listing does not include collections of information contained in new or revised regulations which are to be submitted under section 3507(d)(1)(A) of the Paperwork Reduction Act, nor management and procurement assistance requirements collected by the Department of Energy (DOE).

Each entry contains the following information: (1) collection number and title; (2) summary of the collection of information (includes sponsor (the DOE component)), current OMB document number (if applicable), type of request (new, revision, extension, or reinstatement); response obligation (mandatory, voluntary, or required to obtain or retain benefits); (3) a description of the need and proposed use of the information; (4) description of the likely respondents; and (5) estimate of total annual reporting burden (average hours per response x proposed

frequency of response per year x estimated number of likely respondents.)

**DATES:** Comments must be filed within 30 days of publication of this notice. If you anticipate that you will be submitting comments but find it difficult to do so within the time allowed by this notice, you should advise the OMB DOE Desk Officer listed below of your intention to do so as soon as possible. The Desk Officer may be telephoned at (202) 395-3084. (Also, please notify the EIA contact listed below.)

**ADDRESS:** Address comments to the Department of Energy Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, 726 Jackson Place NW, Washington, D.C. 20503. (Comments should also be addressed to the Statistics and Methods Group at the address below.)

#### FOR FURTHER INFORMATION CONTACT:

Requests for additional information should be directed to Jay Casselberry, Statistics and Methods Group, (EI-70), Forrestal Building, U.S. Department of Energy, Washington, D.C. 20585. Mr. Casselberry may be telephoned at (202) 426-1116, FAX (202) 426-1081, or e-mail at Jay.Casselberry@eia.doe.gov.

#### SUPPLEMENTARY INFORMATION:

The energy information collections submitted to OMB for review were:

1. EIA-23, 23P, and 64A, "Oil and Gas Reserves System Surveys."
2. Energy Information Administration; 1905-0057; Extension with changes; Mandatory.
3. EIA's Oil and Gas Reserves System Surveys collect data used to estimate reserves of crude oil, natural gas, and natural gas liquids, and to determine the status and approximate levels of production. Data are published and are used by public and private analysts. Respondents are operators of oil wells, natural gas wells, and natural gas processing plants.

EIA proposes no substantive revision to the current forms. However, the original **Federal Register** notice did request comments on substantive changes to the Form EIA-23, "Annual Survey of Domestic Oil and Gas Reserves." As a result of comments received and discussions with members of various trade associations it was decided to delay the implementation of the originally proposed changes until all the government organizations involved had the opportunity to revise their own programs, so that all Government agencies would have consistent definitions in place before EIA changed

its reserves definitions and data collection process.

#### 4. Business or other for-profit.

5. 107,084 hours (16.360 hours x 0.802 responses per year x 8161 respondents).

**Statutory Authority:** Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13).

Issued in Washington, D.C., October 17, 1997.
