[Docket No. CP98-39-000]

Tennessee Gas Pipeline Company; Notice of Application

October 22, 1997.

Take notice that on October 20, 1997, Tennessee Gas Pipeline Company (Tennessee), 1001 Louisiana, Houston, Texas 77002, filed an application pursuant to Section 7 of the Natural Gas Act (NGA) and Part 157 of the Commission's Regulations thereunder for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and an order granting permission and approval to abandon the facilities being replaced, all as more fully set forth in the application on file with the Commission and open to public inspection.

Specifically, Tennessee requests that the Commission issue an order authorizing Tennessee to (1) abandon four 26-inch diameter pipelines which are fastened to the bridge for Highway 82 (Highway 82 Bridge) which crosses the Mississippi River near Greenville, Mississippi; (2) construct, own, and operate one 30-inch diameter pipeline; and (3) reconfigure six existing pipelines near the Mississippi River. Tennessee states that its requests are necessitated by the State of Mississippi Highway Department's (MDOT) plans to build a new bridge and remove the Highway 82 Bridge. Tennessee requests that the Commission grant the requested authorization by March 16, 1998.

Tennessee states that the proposed abandonment and construction are necessary to maintain the integrity of Tennessee's mainline transmission system and to enable Tennessee to continue to provide uninterrupted service for shippers. Tennessee states that the estimated cost for abandoning the segments of pipeline and constructing the proposed segments of pipeline will be approximately \$12,337,000.

Any person desiring to participate in the hearing process or to make any protest with reference to said application should on or before November 12, 1997, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to take but will not serve to make the protestants parties to the proceeding. The Commission's rules require that protestors provide copies of their protests to the party or parties directly involved. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by every one of the intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, an intervenor must submit copies of comments or any other filing it makes with the Commission to every

other intervenor in the proceeding, as well as 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek rehearing or appeal the Commission's final order to a federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Tennessee to appear or be represented at the hearing.

Secretary.
