Federal Energy Regulatory Commission

[Project No. 1417; Project No. 1835]

Central Nebraska Public Power and Irrigation District Nebraska Public Power District; Notice Extending Deadline To Submit Final Biological Opinion

January 31, 1997.

On December 4, 1996, the U.S. Department of the Interior, Fish and Wildlife Service (FWS), issued its draft biological opinion on threatened and endangered species for the relicensing of the Kingsley Dam Project No. 1417 and the North Platte/Keystone Diversion Dam Project No. 1835. The two hydropower projects are located on the North Platte, South Platte, and Platte Rivers in Nebraska. On December 17, 1996, Commission staff participated in a meeting with FWS to discuss the draft biological opinion. Formal consultation on the draft opinion was completed at the conclusion of the December 17 meeting.¹ FWS is required to deliver its final biological opinion to the Commission within 45 days after formal consultation is consulted, *i.e.*, no later than January 31, 1997.²

FWS has not submitted the final biological opinion as required. By letter January 14, 1997, FWS informed the Commission that it would not complete the final biological opinion until May 2, 1997, and asked the Commission to adopt its revised schedule.³ Given FWS's failure to meet the January 31, 1997 deadline and its January 14 letter setting out a revised schedule, an extension of the deadline for submitting the final biological opinion is warranted. The new deadline for the final biological opinion is May 2, 1997, as requested.
