**NUCLEAR REGULATORY COMMISSION**

**Workshop Notice To Solicit Public Comments on Draft Regulatory Guide and Standard Review Plan Section for Risk-Informed Inservice Inspection Programs for Piping at Nuclear Power Plants**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of change in date for workshop.

**SUMMARY:** The **Federal Register** notice, dated October 15, 1997 (Volume 62, Number 199, page 53663) announced the availability and solicited public comment on drafts of a regulatory guide and a Standard Review Plan Section for risk-informed inservice inspection programs for piping. These issuances follow the Commission's August 16, 1995 (60 FR 42622) policy statement on the "Use of PRA Methods in Nuclear Regulatory Activities." In June 1997, the NRC published for public comment (62 FR 34321) four draft guides, three standard review plans and a NUREG series document on the use of PRA in nuclear power reactor licensing. The NRC is developing guidance for power reactor licensees on acceptable methods for using probabilistic risk assessment (PRA) information and insights in support of plant-specific applications to change the current licensing basis (CLB) for inservice inspection of piping, known as risk-informed inservice inspection (RI-ISI) programs. The use of such PRA information and guidance will be voluntary. To facilitate comment, the Commission will conduct a workshop to explain the draft documents and answer questions. **DATES:** The workshop will be held on November 20-21, 1997 (not on November 19th, as announced in the October 15, 1997, **Federal Register**).

**Registration**

There is no registration fee for this workshop. However, we request that interested parties register in writing to Kesselman-Jones, 8912 James Ave., NE., Albuquerque, NM 87111, their intent on participating in the workshop. Please

include name, organization, address and phone number with your registration request. Notification of attendance (e.g., pre-registration) is requested so that adequate space, etc., for the workshop can be arranged. Questions regarding meeting registration or fees should be directed to Kesselman-Jones, phone (505) 271-0003, fax (505) 271-0482, e-mail [kessjones@aol.com](mailto:kessjones@aol.com).

Onsite registration begins on November 19 at 3:00 P.M. The comment period expires on January 13, 1997. Comments received after this date will be considered if it is practical to do so, but the Commission is able to assure consideration only for comments received on or before this date. See the October 15, 1997 Notice for additional details.

**Implementation**

It is intended that the risk-informed regulatory guide on inservice inspection of piping (DG-1063), and its associated Standard Review Plan Section 3.9.8, be published by early to mid CY 1998.

Dated at Rockville, Maryland, this 29th day of October 1997.

For the Nuclear Regulatory Commission.
