

of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

PROPOSED COLLECTION: *Title:* Drug Accountability Record (NIH form 2564) and Transfer Investigational Drug Record (NIH form 2564-1). *Type of Information Collection Request:* Revision of a currently approved collection, OMB No. 0925-0240, Expiration Date 1/31/98. *Need and Use of Information Collection:* Food and Drug Administration (FDA) regulations require investigators to establish a record of the receipt, use and disposition of all investigational agents. The National Cancer Institute, NCI, as a sponsor of investigational drug trails, has the responsibility to assure the FDA that investigators in its clinical trials program are maintaining systems for drug accountability. In order to fulfill these requirements, a standard Investigational Drug Accountability Report Form (NIH 2564) was designed to account for drug inventories and usage by protocols. The Transfer Investigational Drug Form (NIH 2564-1) permits intra-institutional transfer of drugs to other approved investigators for other approved protocols. The data obtained from the drug accountability record will be used to keep track of the dispensing of investigational anticancer agents to patients. It is used by NCI management to ensure that investigational drug supplies are not diverted for inappropriate protocol or patient use. The information is also compared to patient flow sheets (protocol reporting forms) during site visits conducted for each investigator once every three years. All comparison are done with the intention of ensuring protocol, patient and drug compliance for patient safety and protections. *Frequency of Response:* Daily. *Affected Public:* state or local governments, businesses, or other for-profit, Federal agencies or employees, non-profit institutions, and small business or organizations. *Type of Respondents:* Investigators, pharmacist; nurses, pharmacy technicians, data managers. The annual reporting burden is as follows: The annualized burden estimate for record keeping is estimated to require 3,650 hours for drug accountability and 120 hours for drug transfer. The annualized cost to the respondents is estimated at \$94,500. The reporting burden is the average time (4 minutes or 0.0666 hour) required to complete the transfer investigational

drug form multiplied by the number of forms completed annually. The record keeping burden represents an average time required for multiple entries (4 minutes or 0.0666 hour per entry) on the drug accountability form, the average number of forms maintained by each record keeper and the number of record keepers. These estimates are based on the 36,500 items shipped by PMB and the 1,200 items transfer approvals in calendar year 1996. Cost estimates are based upon burden hours at an average cost of \$25.00 per hour.

Drug Accountability Form:

No. Of Respondents—4560

No. Of responses per respondent—8

Average Burden per response—0.0666

Annual Burden hours—2430

Drug Transfer Form:

No. Of respondents—1200

No. Of responses per respondent—1

Average burden per response—0.0666

Annual Burden hours—80

Total Annualized Burden For Record Keeping and Reporting: 2,510.

There are no Capital Costs, Operating Costs, and/or Maintenance Cost to report.

Request for Comments

Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Arizona: Availability of the Final Lechuguilla-Mohawk Habitat Management Plan (HMP), Yuma Field Office

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability of the final Lechuguilla-Mohawk Habitat Management Plan (HMP) and environmental assessment, Yuma Field Office.

SUMMARY: The Lechuguilla-Mohawk Habitat Management Plan covers wildlife habitat improvement projects and monitoring on approximately 930,000 acres of public land and military-withdrawn public land in southwestern Arizona. The plan will be implemented in cooperation with Arizona Game and Fish Department under the Sikes Act. Most of the land included in the plan is part of the Barry M. Goldwater Air Force Range which is administered by the Luke Air Force Base in Glendale, Arizona. The western portion of the Goldwater Range is used primarily by the Marine Corps Air Station, Yuma for training.

Objectives of the plan include maintenance and enhancement of habitat for Sonoran pronghorn, desert tortoise, flat-tailed horned lizard, mule deer, desert bighorn sheep, upland game, nongame, and other sensitive wildlife habitat. It is projected that the plan objectives will be achieved within 20 years.

ADDRESSES: A limited number of copies of the Plan and Environmental Assessment are available upon request to: Field Manager, Bureau of Land Management, 2555 East Gila Ridge Road, Yuma, Arizona 85365. There are also copies available for review at the above location.
