

Independence

A statement of independence was supplied attesting that DTL is independent of any producer, supplier, or vendor. The applicant claims in the statement that, for products being tested and certified: it has no managerial affiliations with any producer, supplier, or vendor; it has no securities, investments, or stock options in the product lines; the employment security of its personnel is free from influence by any producer, supplier, or vendor; that it is not owned, operated, or controlled by any producers, suppliers, or vendors; and that it is not engaged in promotion or design.

Creditable Reports/Complaint Handling

Section 1910.7(b)(4) provides that a OSHA recognized NRTL must maintain effective procedures for producing credible findings and reports that are objective and without bias, as well as for handling complaints and disputes under a fair and reasonable system. The QA manual contains details on development of test data and reports, and both the application and the QA manual describe a complaint procedure.

Standards

DTL desires recognition for testing and certification of products to determine compliance with the following test standards, which are appropriate within the meaning of 29 CFR 1910.7(c):

ANSI/UL 234—Low Voltage Lighting Fixtures for Use in Recreational Vehicles
ANSI/UL 1025—Electric Air Heaters

Preliminary Finding

Detroit Testing Laboratory, Inc., addressed all of the criteria which had to be met for recognition as an NRTL, as summarized above. In addition, the NRTL Recognition Program staff performed an on-site review of DTL's main facility and investigated nine major areas: facility; test equipment; calibration program; test and evaluation procedures; test reports; records; quality assurance program; follow-up listing program; and personnel. Any discrepancies noted by the survey team during the on-site review were adequately responded to following the on-site evaluation and are included as an integral part of the On-Site Review Report (see Exhibit 3). With the preparation of the final report, the Program staff was satisfied that the testing facility appeared to meet the necessary criteria required by 29 CFR 1910.7, and recommended that DTL be recognized.

Following a review of the application file and the On-Site Review Report, the NRTL Recognition Program staff concluded that the applicant appeared to have met the requirements for recognition as a Nationally Recognized Testing Laboratory for the Warren, Michigan facility and, therefore, recommended to the Assistant Secretary that the application be preliminarily approved.

Based upon a review of the completed application file, the On-Site Review Report, and the recommendation of the staff, the Assistant Secretary has made a preliminary finding that Detroit Testing Laboratory, Inc. can meet the requirements as prescribed by 29 CFR 1910.7 to recognize the Warren, Michigan facility for the two standards previously listed.

All interested members of the public are invited to supply detailed reasons and evidence supporting or challenging the sufficiency of the applicant having met the requirements for recognition as a Nationally Recognized Testing Laboratory, as well as Appendix A to 29 CFR 1910.7. Submission of pertinent written documents and exhibits shall be made no later than January 20, 1998 and must be addressed to the Office of Variance Determination, NRTL Recognition Program, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, N.W., Room N 3653, Washington, D.C. 20210. Copies of the DTL application, the laboratory On-Site Review Report, and all submitted comments, as received, (Docket No. NRTL-2-97), are available for inspection and duplication at the Docket Office, Room N 2634, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address.

The Assistant Secretary's final decision on whether the applicant (DTL) satisfies the requirements for recognition as a NRTL will be made on the basis of the entire record including the public submissions and any further proceedings that the Assistant Secretary may consider appropriate in accordance with Appendix A to Section 1910.7.

Authority: 29 CFR 1910.7.

Signed at Washington, DC, this 14th day of November, 1997.

Charles N. Jeffress,

Assistant Secretary.

[Docket No. NRTL-4-93]

Underwriters Laboratories Inc.; Request for Expansion of Recognition

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Notice of request for expansion of recognition as a Nationally Recognized Testing Laboratory (NRTL), and preliminary finding.

SUMMARY: This notice announces the application of Underwriters Laboratory for expansion of its recognition as a NRTL under 29 CFR 1910.7, for test standards, and presents the Agency's preliminary finding.

DATES: The last date for interested parties to submit comments is January 20, 1998.

ADDRESSES: Send comments concerning this notice to: NRTL Recognition Program, Office of Variance Determination, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, N.W., Room N3653 Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT: Bernard Pasquet, Office of Variance Determination, NRTL Recognition Program at the above address, or phone (202) 219-7056.

SUPPLEMENTARY INFORMATION:

Notice of Application

Notice is hereby given that Underwriters Laboratories Inc. (UL), has made application pursuant to 29 CFR 1910.7, for expansion of its recognition as a Nationally Recognized Testing Laboratory for the equipment or materials listed below. UL previously made application pursuant to 29 CFR 1910.7, for renewal of its recognition as a Nationally Recognized Testing Laboratory (see 60 FR 16171, 3/29/95), and was so recognized (see 60 FR 33852, 6/29/95).

The addresses of the UL laboratories covered by this application are:
333 Pfinsten Road, Northbrook, Illinois 60062
1285 Walt Whitman Road, Melville, Long Island, New York 11747
1655 Scott Boulevard, Santa Clara, California 95050
12 Laboratory Drive, P.O. Box 13995, Research Triangle Park, North Carolina 27709
2600 N.W. Lake Road, Camas, Washington 98607
UL International Limited, Veristrong Industrial Centre, Block B, 14th Floor

34 Au Pui Wan Street, Fo Tan Sha Tin, New Territories, Hong Kong
UL International Services, Ltd., 3rd Floor, No. 35 Chung Yang South Road, Section 2, Pei Tou 11237, Taipei, Taiwan

Background

This **Federal Register** notice announces UL's application for expansion of recognition as a Nationally Recognized Testing Laboratory for additional test standards, dated 2/5/96, and amended on 4/1/97 (see Exhibits 13A and 13B).

UL has stated that it believes that the following standards pertain to equipment or materials that will be used in environments under OSHA's jurisdiction. UL desires recognition for testing and certification of products when tested for compliance with these test standards, which are appropriate within the meaning of 29 CFR 1910.7(c):

Note: Testing and certification of gas operated equipment is limited to equipment for use with "liquefied petroleum gas" ("LPG" or "LP-Gas").

The NRTL staff reviewed the details of UL's on-site evaluation (review)

reports, and determined that UL has the staff capability and the necessary equipment to conduct testing of products covered by these additional test standards.

Preliminary Finding

Based upon a review of the complete application, the on-site evaluation (review) reports, and the recommendations of the staff, including the recommendation from the Lead Assessor dated August 19, 1997 (see Exhibit 14), the Assistant Secretary has made a preliminary finding that Underwriters Laboratory Inc., can meet the requirements as prescribed by 29 CFR 1910.7 for the expansion of its recognition to include the 174 test standards previously listed.

All interested members of the public are invited to supply detailed reasons and evidence supporting or challenging the sufficiency of the applicant's having met the requirements for expansion of its recognition as a Nationally Recognized Testing Laboratory, as required by 29 CFR 1910.7 and Appendix A to 29 CFR 1910.7. Submission of pertinent written documents and exhibits shall be made no later than January 20, 1998, and must be addressed to the NRTL Recognition Program, Office of Variance Determination, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, N.W., Room N3653, Washington, D.C. 20210. Copies of the UL application, the recommendation of the Lead Assessor, and all submitted comments, as received, (Docket No. NRTL-4-93), are available for inspection and duplication at the Docket Office, Room N2634, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address.

The Assistant Secretary's final decision on whether the applicant (Underwriters Laboratory Inc.) satisfies the requirements for expansion of its recognition as an NRTL will be made on the basis of the entire record including the public submissions and any further proceedings that the Assistant Secretary may consider appropriate in accordance with Appendix A to Section 1910.7.

Authority: 29 CFR 1910.7.

Signed at Washington, DC, this 14th day of November, 1997.

Charles N. Jeffress,

Assistant Secretary.

Notice of Agency Report Forms Under OMB Review

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of agency report forms under OMB review.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13: 44 U.S.C. 3506(c)(2)(A)). The information is used by NASA attorneys and technology transfer specialists to determine if a licensee is achieving and maintaining practical application of the licensed inventions as required by its license agreement.

DATES: Written comments and recommendations on the proposal for the collection of information should be received on or before January 20, 1998.

ADDRESSES: All comments should be addressed to Mr. Michael Battaglia, Office of Aeronautics & Space Transportation Technology, Code RW, National Aeronautics and Space Administration, Washington, DC 20546-0001. All comments will become a matter of public record and will be summarized in NASA's request for OMB approval.

NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES

National Endowment for the Arts; President's Committee on the Arts and the Humanities: Meeting XLI

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), as amended, notice is hereby given that a meeting of the President's Committee on the Arts and the Humanities will be held on December 5, 1997 from 9:00 a.m. to 12:00 p.m. This meeting will convene to discuss the recommendations made in Creative America, a Report to the President on the system of support for arts and culture in the United States today and to consider specific measures in California for increasing support for the arts and the humanities. The meeting will be held in the Schwab Room of the San Francisco Museum of Modern Art, 151 Third Street, San Francisco, California.

At 9:00 a.m. the Committee meeting will begin with a welcome from Mayor Willie Brown, followed by opening remarks from Dr. John Brademas, Chairman. Executive Director Harriet Fulbright will give a Director's update, and the meeting will conclude with reports by individual members of the committee. The meeting will adjourn at 12:00 p.m.

The President's Committee on the Arts and the Humanities was created by Executive Order in 1982 to advise the President, the two Endowments, and the Institute of Museum and Library Services on measures to encourage private sector support for the nation's cultural institutions and to promote public understanding of the arts and the humanities.

If, in the course of discussion, it becomes necessary for the Committee to discuss non-public commercial or financial information of intrinsic value, the Committee will go into closed session pursuant to subsection (c)(4) of the Government in the Sunshine Act, 5 U.S.C. 552b.

Any interested persons may attend as observers, on a space available basis, but seating is limited in meeting rooms and staff of the San Francisco Museum of Modern Art will need to know who will be attending. Therefore, for this meeting, individuals wishing to attend
