National Park Service**Submission of Study Package to Office of Management and Budget; Review Opportunity for Public Comment****AGENCY:** Department of the Interior; National Park Service; Martin Luther King, Jr., National Historic Site; Mojave National Preserve; Virgin Islands National Park.**ACTION:** Notice and request for comments.**ABSTRACT:** The National Park Service (NPS) Visitor Services Project and three parks (Martin Luther King, Jr., National Historic Site in Georgia; Mojave National Preserve in California; Virgin

Islands National Park in the U.S. Virgin Islands) propose to conduct visitor surveys to learn about visitor demographics and visitor opinions about services and facilities in each of these three parks. The results of the surveys will be used by park managers to improve the services they provide to visitors while better protecting park natural and cultural resources. Study packages that include the proposed survey questionnaires for these three proposed park studies have been submitted to the Office of Management and Budget for review.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 and 5 CFR Part 1320, Reporting and Record Keeping Requirements, the NPS invites public comment on these three proposed information collection requests (ICR). Comments are invited on: (1) the need for the information including whether the information has practical utility; (2) the accuracy of the reporting burden estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

The purpose of the three proposed ICRs is to document the demographics of visitors to the three parks, to learn about the motivations and expectations these visitors have for their park visits, and to obtain their opinions regarding services provided by the three parks and the suitability of the visitor facilities maintained in the three parks. This information will be used by park planners and managers to plan, develop, and operate visitor services and facilities in ways that maximize use of limited park financial and personnel resources to meet the expectations and desires of park visitors.

There were no public comments received as a result of publishing in the Federal Register a 60 day notice of intention to request clearance of information collection for these three surveys.

DATES: Public comments will be accepted for thirty days from the date listed at the top of this page in the Federal Register.
