Justification: This account funds Western Oregon resources management, Western Oregon information and resource data systems, Western Oregon facilities management, Western Oregon construction and acquisition, and Jobs in the Woods. A rescission is proposed because balances remain from emergency funds provided in P.L. 104-208 to restore public lands in Oregon damaged by fire. Actual restoration costs were lower than anticipated, in part because the treatment methods used cost less than the treatments originally anticipated, and regular appropriations were used to treat damaged lands. Justification: This account funded the Essential Air Services (EAS) program, which subsidized air transportation at small remote communities, from the Airport and airway trust fund. The Federal Aviation Administration (FAA) Reauthorization Act of 1996 converted the EAS program funding to mandatory supported by FAA overflight fees, and increased the program level from \$25.9 million to \$50 million annually. This rescission is proposed because not all of the unobligated balances will be obligated. This action is taken pursuant to the Antideficiency Act (31 U.S.C. 1512).

Justification: This program provides guaranteed loans for purchasers of ships from the U.S. shipbuilding industry and for modernization of U.S. shipyards. This rescission is proposed because, in FY 1998, more than \$61 million in unobligated balances was brought forward from FY 1997, approximately twice the enacted level of \$32 million, to cover the cost of loans guaranteed in FY 1998. This large carryover reflects lower demand in recent years for these loan guarantees. In addition, new loan guarantees will be less risky than previous loans, resulting in a 30 percent lower subsidy rate. This action is taken pursuant to the Antideficiency Act (31 U.S.C. 1512).
