

notified of the amount of the anticipated fee or such portion thereof as can readily be estimated. Such notification shall be transmitted as soon as possible, but in any event within 5 working days of receipt by the Corporation, giving the best estimate then available. The notification shall offer the requester the opportunity to confer with appropriate representatives of the Corporation for the purpose of reformulating the request so as to meet the needs of the requester at a reduced cost. The request will not be deemed to have been received by the Corporation for purposes of the initial 20-day response period until an advance payment of the entire fee is made.

(j) Interest may be charged to those requesters who fail to pay the fees charged. Interest will be assessed on the amount billed, starting on the 31st day following the day on which the billing was sent. The rate charged will be as prescribed in 31 U.S.C. 3717.

(k) If the Corporation reasonably believes that a requester or group of requesters is attempting to break a request into a series of requests for the purpose of evading the assessment of fees, the Corporation shall aggregate such requests and charge accordingly. Likewise, the Corporation will aggregate multiple requests for documents received from the same requester within 45 days.

(l) The Corporation reserves the right to limit the number of copies that will be provided of any document to any one requester or to require that special arrangements for duplication be made in the case of bound volumes or other records representing unusual problems of handling or reproduction.

Pacific Halibut Fisheries; Retention of Undersized Halibut in Regulatory Area 4E

AGENCY: National Marine Fisheries Service (NMFS); National Oceanic and Atmospheric Administration (NOAA); Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS issues a proposed rule that would allow the retention of undersized halibut (halibut less than 32 inches, 81.3 centimeters (cm) with the head on; or halibut less than 24 inches, 61 cm) caught with authorized commercial gear in International Pacific Halibut Commission (IPHC) Regulatory Area 4E for personal use. Commercial sale of undersized halibut would remain prohibited. This action is necessary to implement the recommendation of the North Pacific Fishery Management Council (Council) to allow the legal harvest of undersized halibut by persons using Community Development Quota (CDQ) in Regulatory Area 4E. This action is intended to provide for the continued existence of the customary and traditional food practices of indigenous inhabitants by allowing them to retain all halibut caught with deployed gear in Regulatory Area 4E.

DATES: Comments must be received by March 24, 1998.

ADDRESSES: Comments must be sent to Sue Salvesson, Assistant Administrator for Sustainable Fisheries, Sustainable Fisheries Division, Alaska Region, NMFS, 709 West 9th Street, Room 453, Juneau, AK 99801, or P.O. Box 21668, Juneau, AK 99802, Attention: Lori J. Gravel. Copies of the Environmental Assessment/Regulatory Impact Review (EA/RIR) for this action may be obtained from the above address.

FOR FURTHER INFORMATION CONTACT: John Lepore, 907-586-7228.

SUPPLEMENTARY INFORMATION: The Convention between the United States and Canada for the Preservation of the Halibut Fishery of the North Pacific Ocean and the Bering Sea (Convention), signed at Ottawa, Ontario, Canada, on March 2, 1953, and amended by a Protocol Amending the Convention, signed at Washington, DC, United States of America, on March 29, 1979, authorizes the IPHC to promulgate regulations for the conservation and management of the Pacific halibut fishery. These regulations must be approved by the Secretary of State of the United States pursuant to section 4 of the Northern Pacific Halibut Act (Halibut Act, 16 U.S.C. 773-773k) that executes the above Convention. The Halibut Act, in section 5, provides that the Regional Fishery Management Council having authority for the geographical area concerned may recommend management measures governing Pacific halibut catch in U.S. Convention waters that are in addition to, but not in conflict with, regulations of the IPHC. Section 5 of the Halibut Act also provides that the Secretary of Commerce (Secretary) shall have the general responsibility to carry out the Convention between the United States and Canada and that the Secretary shall adopt such regulations as may be necessary to carry out the purposes and objectives of the Convention and the Halibut Act. The Secretary's authority has been delegated to the Assistant Administrator for Fisheries, NOAA (AA).

In 1996, the Council was requested by Alaska Native tribal organizations to review the prohibition on retaining undersized halibut caught with authorized commercial gear. This request was made on behalf of Western Alaska Natives who retained undersized halibut harvested along with CDQ halibut of commercial length. Traditionally, Western Alaska Natives of Yupik descent keep all fish caught and endeavor to utilize this fish to the fullest extent possible. This practice is in
