

plans, will substitute the clause at DFARS 252.219-7004 for the clause at FAR 52.219-9, and will delete the clauses at FAR 52.219-10 and 52.219-16 and DFARS 252.219-7003 and 252.219-7005, as appropriate.

7. Review annually, with the contract administration activity, the contractor's performance under the plan. Document the review findings and distribute, in accordance with paragraph VI(A), within 45 days of the end of the fiscal year.

8. By November 15 of the year after acceptance, and annually thereafter, determine whether the contractor has met its comprehensive subcontracting goals. If the goals have not been met, determine whether there is any indication that the contractor failed to make a good faith effort and take appropriate action.

9. By December 15, 2000, prepare and submit a report on each participating contractor's performance which details the results of the Program. The report must compare the contractor's performance under the Program with its performance for the three fiscal years prior to acceptance into the Program. The report distribution will be in accordance with paragraph VI(A).

**D. Participating contractors:**

1. Shall establish their comprehensive subcontracting plans on the same corporate, division or plant-wide basis under which they submitted the SF 295 during the preceding fiscal year, except that those contractors that historically reported through a higher headquarters can elect to participate as a separate (lower-level) reporting profit center, plant or division if the contractor achieved an SDB subcontracting performance rate of 5 percent or greater in the preceding fiscal year.

2. Upon negotiation of an acceptable comprehensive subcontracting plan, shall be exempt from individual contract-by-contract reporting requirements for DoD contracts and subcontracts under DoD contracts unless otherwise required in accordance with paragraph III(C)(5).

3. Shall continue individual contract reporting on non-DoD contracts.

4. Shall comply with the flow-down provisions of Section 211 of Public Law 95-507 for large business subcontractors

which are not participating in the Program. Consequently, large business concerns which are not participating in the Program receiving a DoD subcontract in excess of \$500,000 (\$1,000,000 for construction) are required to adopt a plan similar to that mandated by the clause at FAR 52.219-9. Participating contractors are prohibited from flowing down the "Comprehensive" subcontracting deviation provisions of DFARS 252.219-7004. Accordingly, large business subcontractors to the participating contractors who themselves are not participating in the Program shall be required to establish individual subcontracting plans with specific goals for awards to small business, small disadvantaged business and women-owned small business concerns.

5. Upon expulsion from the Program or Program termination on September 30, 2000, shall negotiate and establish individual subcontracting plans on all future DoD contracts that otherwise meet the requirements of Section 211 of Public Law 95-507.

**VI. Monitoring and Reporting of Comprehensive Subcontracting Plans and Goals**

A. Upon negotiation and acceptance of comprehensive subcontracting plans and goals, the designated activity shall immediately forward one copy of the plan to each of the following:

1. Director, Office of Small and Disadvantaged Business Utilization, Office of the Deputy Under Secretary of Defense (Acquisition and Technology), 3061 Defense Pentagon, Room 2A338, Washington, DC 20301-3061.

2. Director, Small and Disadvantaged Business Utilization, for the military department or defense agency of the activity that negotiated and accepted the comprehensive subcontracting plan.

3. The cognizant contract administration office.

B. Each participating contractor shall complete the SF 295 "Summary Subcontract Report" in accordance with the instructions on the back of the form on a semi-annual basis, except as noted below.

1. One copy of the SF 295 and attachments shall be submitted to

Director, Office of Small and Disadvantaged Business Utilization, Office of the Deputy Under Secretary of Defense (Acquisition and Technology), 3061 Defense Pentagon, Room 2A338, Washington, DC 20301-3061.

2. Participating contractors shall enter in Item 14 "Remarks" block the annual corporate, division or plant-wide small business, small disadvantaged business and women-owned small business percentage and corresponding dollar goals.

3. Participating contractors shall also enter separately in Item 14 the percentage and corresponding dollar goals for each of the two selected industry categories (see paragraph IV(A)(2)).

4. Participating contractors shall also enter separately in Item 14 on a semi-annual cumulative basis the percentage and corresponding dollar amount of subcontract awards made in each of the two selected industry categories.

5. Participating contractors shall be exempt from the completion of SF 294 "Subcontract Report For Individual Contracts" for DoD contracts during their participation in the Program.

**Air Force A-76 Initiatives Cost Comparisons and Direct Conversions (As of January 1998)**

Air Force is in the process of conducting the following A-76 initiatives. Cost comparisons are public-private competitions. Direct conversions are functions that may result in a conversion to contract without public competition. These initiatives were announced and in-progress as of January 1998, include the installation and state where the cost comparison is being performed, the total authorizations under study, public announcement date and anticipated solicitation date. The following initiatives are in various stages of completion.

### Department of the Air Force

#### Notice of Availability of the Environmental Assessment for the Proposed Acquisition of Real Estate Interests for Altus Air Force Base (AFB), Oklahoma

The United States Air Force is announcing availability of an Environmental Assessment (EA) which analyzes the proposed acquisition of easements near the ends of a new runway at Altus AFB. The Air Force proposes to acquire easements over approximately 1,046 acres, relocate residents, and remove dwellings so that the runway may be used by all assigned aircraft. The EA describes the proposal and alternatives considered and analyzes potential impacts.

The Air Force is planning to conduct a public meeting on April 9, 1998 at 7:00 p.m. at the Herschal H. Crow Auditorium at Western Oklahoma State College in Altus, Oklahoma. The purpose of the meeting is to present the proposal and information addressed in the EA and to solicit public comments.

All interested parties are invited to comment on the EA. Statements, both written and oral, from representatives of government agencies, public interest groups, and the public will be accepted. Written and oral comments will be reviewed in their entirety and given equal consideration. In order to ensure the Air Force has sufficient time to fully consider public input on issues relating to the analyses contained in the EA, comments should be submitted to the address below by April 24, 1998.

An EA is an environmental analysis process that results in a detailed public document that may lead to a Finding of No Significant Impact for the proposed action. If there are significant impacts, an Environmental Impact Statement will be prepared. Public participation is integral to this EA process. The National Environmental Policy Act requires federal agencies to prepare a detailed environmental analysis before committing resources for significant proposed actions.

Copies of the EA will be available for review beginning March 24, 1998 at the Altus, Oklahoma Public Library and the Cordell, Oklahoma Public Library. To

obtain a copy of the EA, or to submit written comments, address correspondence to: 97 AMW/PA, 100 Inez Blvd., Suite 2, Altus AFB, OK 73523-5067, (580) 481-7700.
