

Areas or Areas of Critical Environmental Concern.

2. *Identification of the geographic area involved:* The planning area involved within the Two Rivers RMP amendment includes approximately 13,000 acres of public lands near the Criterion Summit, midway between Shaniko Junction (junction of Highways 197 and 97) and the City of Maupin, and approximately 2,000 acres along Tenmile Creek, just west of Shaniko Junction in southern Wasco and northern Jefferson counties.

3. *General types of issues anticipated:* Issues expected to be addressed in the plan amendment would include access, vegetation management, and areas of special designation.

4. *Disciplines to be represented and used to prepare the RMP amendment will include:* botany, cultural resources, range, fire management, fisheries, recreation, noxious weeds, wildlife, hydrology, economics, and land use planning.

5. *The kind and extent of public opportunities provided:* Several public scoping meetings will be held in the spring of 1998 and will be announced through news media and a mailed scoping document. Two field tours of the acquisition are also planned for the spring of 1998 and will be announced through the media. Public participation will be carried out through document and public review periods to be announced through the **Federal Register** and local newspapers. Interested parties will receive a scoping mailer. Estimated mailing time is April 1998. Additional copies will be available at: Prineville District Office, 3050 NE 3rd St., Prineville, Oregon 97754, phone 541-416-6700.

6. *Times, dates and locations for anticipated public meetings and field tours:* When scheduled, pertinent information will be published in local newspapers such as The Bend Bulletin, The Central Oregonian, The Oregonian, The Redmond Spokesman, The Dalles Chronicle and others. Public input through written comments and public workshops will be emphasized.

7. *Name, title, address and telephone number of the Bureau of Land Management official who may be contacted for further information:* J.C. Hanf, Project Lead, 3050 NE 3rd St., P.O. Box 550, Prineville, Oregon 97754, phone 541-416-6700. The responsible line official is Jim Kenna, Deschutes Resource Area Manager, who may be reached at the same address and phone number.

8. *Location and availability of documents relevant to the planning process:* Many, if not all, of the planning

documents and supporting records are expected to be available in both paper and an electronic format, including a District Internet address (to be determined). Additional copies of published documents and the supporting record will be available at: Prineville District Office, 3050 NE 3rd St., Prineville, Oregon 97754, phone 541-416-6700 during normal working hours. Published documents will also be available for public review in the Public Room at the Oregon State Office, 1515 SW 5th Ave., Portland, Oregon 97201, phone 503-952-6000. Public and interagency comments on the plan amendment and associated analysis, including names and addresses of respondents, will be available for public review at the above address as part of the supporting record. Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. All submissions for organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or business, will be made available for public inspection in their entirety.

Date: March 26, 1998

**James L. Hancock,**

*District Manager.*

## DEPARTMENT OF THE INTERIOR

### Minerals Management Service

#### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** Minerals Management Service (MMS), Interior.

**ACTION:** Notice of a new information collection.

**SUMMARY:** As part of its continuing effort to reduce paperwork and respondent burden, MMS invites the public and other Federal agencies to comment on a proposal to request approval of the new collection of information discussed below. The Paperwork Reduction Act of 1995 (PRA) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number.

**DATES:** Submit written comments by June 2, 1998.

**ADDRESSES:** Direct all written comments to the Rules Processing Team, Minerals Management Service, Mail Stop 4024, 381 Elden Street, Herndon, Virginia 20170-4817.

**FOR FURTHER INFORMATION CONTACT:** Alexis London, Rules Processing Team, telephone (703) 787-1600. You may contact Alexis London to obtain a copy of the proposed collection of information at no cost.

#### SUPPLEMENTARY INFORMATION:

*Title:* Survey—Recreational Usage of Oil and Gas Rigs by Fishermen and Divers

*Abstract:* The Outer Continental Shelf (CS) Lands Act (at U.S.C. 1346, Environmental Studies), instructs the Secretary of the Interior, subsequent to the leasing and developing of any area or region, to conduct additional studies to establish environmental information as he deems necessary and to monitor the human, marine, and coastal environments of such area or region in a manner designed to provide time-series and data trend information which can be used for comparison with previously collected data for the purpose of identifying any significant changes in the quality and productivity of such environments, for establishing trends in the areas studied and monitored, and for designing experiments to identify the causes of such changes.

Biological studies have shown that there are between 20 and 50 times more fish found under and near oil platforms than in nearby soft bottom areas of the Gulf of Mexico. Therefore, in order to make decisions regarding the conversion of existing rigs to artificial reefs, MMS needs statistically accurate information on the extent to which oil and gas structures are used by recreational fishers and divers and the economic impact of the continued availability of these structures on local communities.

A data collection survey is being proposed to obtain statistically reliable estimates of the level of fishing and diving activity at oil and gas structures in the Gulf of Mexico from Alabama through Texas and to determine the levels of economic activity associated with this fishing and diving.

*Frequency:* This is a one time survey. Data collection will occur over a one year period (January 1, 1999—December 31, 1999).

*Estimated number and description of respondents and reporting and recordkeeping "hour" burden:* The estimated hour burden is shown in

parenthesis for each type of proposed respondent:

Dockside field interviews with 6,513 private boat fishermen from Alabama through Texas. Private boat fishermen are individuals who are fishing either from a boat that they own or rent (10.0 minutes).

Dockside field interviews with 1,331 charter boat fishermen from Alabama through Texas. This includes fishermen who "lease" an entire boat for, usually, either a 1/2 day or full day fishing trip. The charter boat is usually licensed to carry 6 or less people (10 minutes).

Dockside field interviews with 400 party boat fishermen from Alabama through Texas. Party boats usually take out more than six people for a fee and the group consists of individual fishermen buying a single spot on a boat not leasing the entire boat (10 minutes).

Dockside field interviews with 200 divers from Alabama through Texas. This includes both snorkelers as well as individuals wearing self contained breathing apparatus who may be spear fishing or swimming (10 minutes).

Telephone follow-up interviews with 3,255 private boat anglers (20.6 minutes), 920 charter boat anglers and 280 party boat anglers (12.3 minutes), and 200 divers (20.2 minutes).

Telephone survey of 200 charter boat operators from Alabama through Texas. Boat operators are the individuals captaining the vessel (6.2 minutes).

Telephone interviews with 50 party boat operators from Alabama through Texas (6.2 minutes).

Telephone interviews with 50 dive shop or diving guide service providers from Alabama through Texas (2.0 minutes).

**Estimated Reporting and Recordkeeping Cost Burden:** The PRA requires agencies to estimate the total annual cost burden to respondents as a direct result of this collection of information. This is a one time survey. There are no questions asked which would require review of such detailed records as capital or operating expenditures of businesses or individuals. There is no cost burden on the respondents associated with this collection of information.

**Comments:** The MMS will summarize written responses to this notice and address them in its submission for OMB approval. All comments will become a matter of public record. In calculating the burden, MMS has assumed that information requested from respondents will not require the reviewing of detailed records. Questions have been designed to elicit information which would reasonably be recalled by respondents or quickly estimated. The

MMS specifically solicits comments on the following questions:

(a) Is the proposed collection of information necessary for the proper performance of MMS's functions, and will it be useful?

(b) Are the estimates of the burden hours of the proposed collection reasonable?

(c) Do you have any suggestions that would enhance the quality, clarity, or usefulness of the information to be collected?

(d) Is there a way to minimize the information collection burden on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other forms of information technology?

#### **MMS Information Collection**

**Clearance Officer:** Jo Ann Lauterbach, (202) 208-7744.

Dated: March 26, 1998.
