The results will be used by the National Park Service, Department of the Interior, and the Congress to evaluate the trial fee programs. A Paperwork Reduction Act submission that includes the proposed questionnaire for these surveys has been submitted to the Office of Management and Budget for review.

**SUMMARY:** Under the provisions of the Paperwork Reduction Act of 1995 and 5 CFR Part 1320, Reporting and Record Keeping Requirements, the National Park Service invites comments on the proposed information collection request (ICR). Comments are invited on: (1) the need for the information including whether the information has practical utility; (2) the accuracy of the reporting burden estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the information collection on respondents, including use of automated collection techniques or other forms of information technology.

The purpose of the ICR is to obtain in 13 national park units information about visitors and their reactions to types of new visitor fee programs being conducted on a trial basis in many units of the National Park System of the United States. The 13 national park units will represent a cross section of the parks in the National Park System. Results of this survey will be used by the National Park Service, the Department of the Interior, and the Congress to evaluate the trial fee programs.
