## FEDERAL COMMUNICATIONS COMMISSION

### Notice of Public Information Collections being Reviewed by the Federal Communications Commission

March 31, 1998

**SUMMARY:** The Federal Communications Commissions, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

**DATES:** Persons wishing to comment on this information collection should submit comments June 8, 1998.

**ADDRESSES:** Direct all comments to Judy Boley, Federal Communications Commissions, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to [jboley@fcc.gov](mailto:jboley@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information or copies of the information collections contact Judy Boley at 202-418-0214 or via internet at [jboley@fcc.gov](mailto:jboley@fcc.gov).

#### SUPPLEMENTARY INFORMATION:

*OMB Approval Number:* 3060-0128.

*Title:* Application for General Mobile Radio Service and Interactive Video Data Service.

*Form No.:* FCC 574.

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Individuals; business or other for-profit; not-for-profit institutions; state, local or tribal government.

*Number of Respondents:* 1,826.

*Estimated Time Per Response:* 30 minutes.

*Total Annual Burden:* 913 hours.

*Frequency of Response:* On occasion reporting requirements.

*Needs and Uses:* This form is used by General Mobile Radio Service (GMRS) and some Interactive Video Data Service (IVDS) applicants for a new or modified license. (IVDS Auction applicants use FCC 600.) Applicants may also file this form for renewal when they do not receive the automated renewal notice, FCC Form 574R, sent to them by the Commission. This form is required by the Communications Act of 1934, as amended; International Radio Regulations, General Secretariat of International Telecommunications Union and FCC Rules - 47 CFR 1.922, 1.924, 95.71, and 95.73. FCC 574 is also being used by some Interactive Video Data Service licensees until the Universal Licensing System (ULS) is implemented. FCC Rules 47 CFR 95.811, 95.815, 95.817 and 95.833 identify the collection of the data for IVDS purposes.

The Wireless Telecommunications Bureau staff will use the data to determine eligibility of the applicant to hold a radio station authorization and for rulemaking proceedings. Compliance personnel will use the data in conjunction with field engineers for enforcement purposes. The data obtained from the collection is vital to maintaining an acceptable database.

This form is being revised to delete the fee payment blocks. FCC Form 159, Fee Remittance Advice, is required with any payment to the FCC. The fee payment blocks duplicated the collection of this information. A space has been added for the applicant to provide an Internet/e-mail address. The collection of "FCC Tower Number" has been changed to "Antenna Structure Registration Number" due to the FCC revising the way antennas are registered with the FCC.

When the Universal Licensing System (ULS) is implemented, GMRS applicants will use the proposed FCC Form 605 and IVDS applicants will file the proposed FCC 601. At the time of implementation, the FCC will notify OMB of any change in the status of this collection of information.

The number of respondents is being adjusted to reflect a decrease from 2,970 to 1,826 and total annual burden hours from 1,485 to 913 hours. This

adjustment is due to a re-evaluation of receipts.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

The rules implemented use a channeling plan, and licensing and technical rules for fixed point-to-point microwave operations in the 37 GHz, while also modifying the rules for the 39 GHz band to make them consistent with the technical rules we are proposing for the 37 GHz band. The information is used by the Commission staff to provide adequate point-to-point microwave spectrum, which will facilitate

provision of communications infrastructure for commercial and private mobile radio operations and competitive wireless local telephone service. Without this information, the Commission would not be able to carry out its statutory responsibilities.
