

standardized AOD treatment performance and outcome measures. The program will support the development and evaluation of strategies for monitoring the impact and effectiveness of alcohol and other drug (AOD) treatment. To fulfill this objective, there are four phases: A planning/coordination phase, a developmental phase, an implementation phase, and an analysis/dissemination phase.

A Technical Assistance Center will be funded to provide overall coordination and support of the program, management of common data collected across Project States, and assumption of primary responsibility, in collaboration with CSAT and the States, for analyzing the consistency of the data across the States and producing inter-State findings.

- Priorities: None.

- Eligible Applicants: Applications will be accepted for two types of awards: Project States and a Technical Assistance Center. Project State applications may be submitted by State AOD Single State Authorities (SSAs). Eligibility is limited to the SSAs because this cooperative agreement program is designed to collect information on the treatment services funded by the SAPT Block Grant. The SSAs are the recipients of the SAPT Block Grants and they are the only parties that have access to MIS programs with the ability to collect necessary data. Technical Assistance Center applications may be submitted by units of State or local government and by domestic private nonprofit and for-profit organizations such as community-based organizations, universities, colleges, and hospitals.

- Cooperative Agreement/Amounts: It is estimated that approximately \$5 million will be available to support 10 to 12 State awards and 1 Technical Assistance Center under this program in FY 98. Each project State award is estimated to be in the range of \$300,000 to \$500,000 per year in total costs (direct and indirect). The Technical Assistance Center is estimated to be \$250,000 per year in total costs (direct and indirect).

## 5. Public Health System Reporting Requirements

The Public Health System Impact Statement (PHSIS) is intended to keep State and local health officials apprised of proposed health services grant and cooperative agreement applications submitted by community-based nongovernmental organizations within their jurisdictions.

Community-based nongovernmental service providers who are not transmitting their applications through the State must submit a PHSIS to the head(s) of the appropriate State and local health agencies in the area(s) to be affected not later than the pertinent receipt date for applications. This PHSIS consists of the following information:

- a. A copy of the face page of the application (Standard form 424).
- b. A summary of the project (PHSIS), not to exceed one page, which provides:
  - (1) A description of the population to be served.
  - (2) A summary of the services to be provided.
  - (3) A description of the coordination planned with the appropriate State or local health agencies.

State and local governments and Indian Tribal Authority applicants are not subject to the Public Health System Reporting Requirements.

Application guidance materials will specify if a particular FY 1998 activity described above is/is not subject to the Public Health System Reporting Requirements.

## 6. PHS Non-use of Tobacco Policy Statement

The PHS strongly encourages all grant and contract recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of a facility) in which regular or routine education, library, day care, health care, or early childhood development services are provided to children. This is consistent with the

PHS mission to protect and advance the physical and mental health of the American people.

## 7. Executive Order 12372

Applications submitted in response to all FY 1998 activities listed above are subject to the intergovernmental review requirements of Executive Order 12372, as implemented through DHHS regulations at 45 CFR Part 100. E.O. 12372 sets up a system for State and local government review of applications for Federal financial assistance. Applicants (other than Federally recognized Indian tribal governments) should contact the State's Single Point of Contact (SPOC) as early as possible to alert them to the prospective application(s) and to receive any necessary instructions on the State's review process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. A current listing of SPOCs is included in the application guidance materials. The SPOC should send any State review process recommendations directly to: Office of Extramural Activities Review, Substance Abuse and Mental Health Services Administration, Parklawn Building, Room 17-89, 5600 Fishers Lane, Rockville, Maryland 20857.

The due date for State review process recommendations is no later than 60 days after the specified deadline date for the receipt of applications. SAMHSA does not guarantee to accommodate or explain SPOC comments that are received after the 60-day cut-off.

Dated: April 3, 1998.
