SUPPLEMENTARY INFORMATION:

I. Abstract

Public Law 96-282, the Deep Seabed Hard Mineral Resources Act, authorizes the Administrator of NOAA to issue licenses to eligible U.S. citizen applicants for the exploration of deep seabed mineral resources. Information must be submitted as part of a license application so that NOAA can determine if statutory requirements for eligibility are met. License holders are required to do environmental monitoring and to submit reports to allow NOAA to track activities and their impact on the environment.

II. Method of Collection

The requirements are contained in 15 CFR 970. No forms are used.

III. Data

OMB Number: 0648-0145.

Form Number: N/A.

Type of Review: Regular Submission.

Affected Public: Businesses and other for-profit.

Estimated Number of Respondents: 2.

Estimated Time Per Response: An annual report is expected to take about 20 hours. An application would take from 2,000-4,000 hours.

Estimated Total Annual Burden

Hours: 40 hours (no applications have been received for a number of years and none are expected).

Estimated Total Annual Cost: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be

collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: April 17, 1998.
