Substance Abuse and Mental Health Services Administration (SAMHSA)

Cooperative Agreement With the National Association of State Mental Health Program Directors

AGENCY: Center for Mental Health Services, SAMHSA, HHS.

ACTION: Cooperative agreement to support a technical assistance center for States in planning mental health services.

SUMMARY: This notice is to provide information to the public concerning a planned grant from the Center for Mental Health Services (CMHS) to the National Association of State Mental

Health Program Directors to fund the Technical Assistance Center (TA Center) for State Mental Health Planning. If the application is recommended for approval by the Initial Review Group, and the CMHS National Advisory Council concurs, funds will be made available. This is not a formal request for applications. Assistance will be provided only to the National Association of State Mental Health Program Directors.

Authority/Justification

The cooperative agreement will be made under the authority of section 1948(a) of the Public Health Service Act, as amended (42 U.S.C. 300x-58). A single source award will be made to the National Association of State Mental Health Program Directors (NASMHPD) based on its close relationship with the single State mental health authorities (SMHAs). This relationship provides NASMHPD with a unique qualification to carry out the activities of this cooperative agreement, which require such an affiliation with the State agencies. As the organization representing all State mental health agencies, NASMHPD is the only organization whose membership is composed of the persons directly responsible for the administration of public mental health policies in the respective States. NASMHPD enjoys a full 59-State and territorial membership of the Mental Health Services Block Grant recipients, as well as a full, continuous, and fruitful communication with the leadership and staff of these agencies. It thus has staff who are uniquely knowledgeable about the needs of the States, and is in a unique position to assess the actual and verified needs of the States for technical assistance.

Background

One of the primary goals of the Community Mental Health Services Block Grant is to assist States in the creation of a comprehensive, community-based system of care for adults with severe mental illness and children with serious emotional disturbances. The burden of providing for mental health services lies primarily with the States. Block grant legislation requires CMHS to collaborate with the States in meeting this obligation by helping them to determine their needs and by cooperating with them in identifying appropriate technical assistance to help them in planning ways of meeting their programmatic obligations.

The primary goals of this program are:
