SUPPLEMENTARY INFORMATION: The Bureau of the Census first began to make these count determinations in 1972 in response to the requests of local governments to establish eligibility for participation in the General Revenue Sharing Program, authorized under Pub. L. 92-512. At that time, the Bureau of the Census established a fee-paid program enabling entities with annexations to obtain updated decennial census population counts that reflected the population living in the boundary change areas. The Bureau of the Census received funding from the U.S. Department of the Treasury to make those determinations for larger annexations that met prescribed criteria and for the new incorporations. The General Revenue Sharing Program ended on September 30, 1986. The Bureau of the Census continued to fund the count update operation through fiscal year 1995 for the large annexations and through fiscal year 1996 for newly incorporated areas. There is no funded Federal legislative requirement that this work continue.

The Bureau of the Census will renew the program in the year 2001, after the availability of Census 2000 data, for those entities that desire the service, provided that any and all costs associated with this work are borne by the local governmental entity.

Authority to continue this program on a fee-for-service basis is contained in Title 13, United States Code, Section 8.

Dated: May 13, 1998.

James F. Holmes,

Acting Director, Bureau of the Census.

Atlantic Shark Fisheries; Notice of Availability

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability.

SUMMARY: NMFS announces that the Highly Migratory Species Management Division has prepared a final document considering the economic effects and potential alternatives to the 1997 quotas on the Atlantic large coastal shark fishery, as ordered by the Middle District Court of Florida, Tampa Division, on February 26, 1998.

ADDRESSES: Requests for copies of the final document should be sent to Margo Schulze, Highly Migratory Species Management Division (F/SF1), National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Margo Schulze or Karyl Brewster-Geisz, 301-713-2347; fax: 301-713-1917.

SUPPLEMENTARY INFORMATION: The fishery for Atlantic sharks is managed under the Fishery Management Plan for Sharks of the Atlantic Ocean prepared by NMFS under authority of section 304(g) of the Magnuson-Stevens Fishery Conservation and Management Act, as amended, and was implemented on April 26, 1993, through regulations found at 50 CFR part 678.

On April 2, 1997 (62 FR 16648), NMFS reduced the large coastal shark commercial quota and recreational bag limit by 50 percent as proposed, with an exception for an additional recreational allowance of two Atlantic sharpnose sharks per person per trip. The prohibition on possession of white sharks was modified to allow for a catch-and-release-only recreational fishery. Otherwise, all measures were implemented as proposed. Partly because NMFS received comments that indicated the proposed measures may have a significant economic impact on a substantial number of small entities and because it wanted to ensure that the impacts were thoroughly analyzed, NMFS prepared a Final Regulatory Flexibility Analysis (FRFA) that assessed the economic impacts of the regulation on small entities engaged in the Atlantic shark fishery in the final rule. In that FRFA, NMFS reaffirmed its
