Correction

In the **Federal Register** issue of April 27, 1998 in FR Doc. 98-11067, on page 20643, in the third column, correct the SUMMARY caption to read:

SUMMARY: The following public lands near the community of Worland, Washakie County, Wyoming, have been examined and found suitable for classification for lease under the provisions of the Recreation and Public Purposes Act, as amended (43 United States Code 869 *et seq.*). The Washakie County Fair Board proposes to use the lands for an Olympic-style cross-country horse track and associated jumping facilities.

DEPARTMENT OF THE INTERIOR

Minerals Management Service

Outer Continental Shelf, Gulf of Mexico Region, Proposed Western Gulf Sales 171, 174, 177, and 180

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of Availability of the Final Multisale Environmental Impact Statement (EIS) on Proposed Western Gulf of Mexico (GOM) Sales 117, 174, 177, and 180.

The Minerals Management Service (MMS) has prepared a final multisale EIS on four proposed Outer Continental Shelf (OCS) oil and gas lease sales in the Western GOM. We will conduct a planning process for one sale each year from 1998 through 2001. Although this EIS addresses four proposed lease sales, it is a decision document only for proposed Sale 171. We will consult with other Federal agencies and the affected States for each of the yearly proposed sales. We will perform a National Environmental Policy Act review, and give the public an opportunity to participate in each sale.

You may obtain single copies of the final multisale EIS from the Minerals Management Service, Gulf of Mexico OCS Region, *Attention:* Public Information Office (MS-5034), 1201 Elmwood Park Boulevard, Room 114, New Orleans, Louisiana 70123-2394 or by calling 1-800-200-GULF.

You may look at copies of the draft EIS in the following libraries:

BILLING CODE 4310-MR-M

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects from Rio Arriba County and Taos County, NM in the Control of the Carson National Forest, United States Forest Service, Taos, NM

AGENCY: National Park Service.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains in the control of the Carson National Forest, United States Forest Service, Taos, NM.

A detailed assessment of the human remains was made by Museum of New Mexico, Maxwell Museum (University of New Mexico), and U.S. Forest Service professional staff in consultation with representatives of the Navajo Nation, the Pueblo of Taos, and the Pueblo of Picuris.

In 1934, human remains representing one individual were recovered from site LA 1684 during legally authorized excavations conducted by C.O. Erwin and M.W. Kelly of the Laboratory of Anthropology (Museum of New Mexico). No known individuals were identified. No associated funerary objects are present.

Based on material culture, architecture, and site organization, site LA 1684 has been identified as a Navajo pueblo occupied during the first half of the 18th century.

Based on the above mentioned information, officials of the United States Forest Service have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the United States Forest Service have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and the Navajo Nation.

In 1965, human remains representing one individual were recovered from site LA 9203 during legally authorized

excavations conducted by the University of New Mexico Archaeological Field School. No known individual was identified. No funerary objects are present.

Based on material culture and site organization, site LA 9203 has been identified as an Anasazi pithouse occupied between 1100-1225 A.D.

In 1967, human remains representing three individuals were recovered from sites LA 9204, LA 9205, and LA 9206 during legally authorized excavations conducted by the University of New Mexico Archaeological Field School. No known individuals were identified. The one associated funerary object is a piece of animal bone with the individual at site LA 9204.

Based on material culture, architecture, and site organization, sites LA 9204, LA 9205, and LA 9206 have been identified as three Anasazi roomblocks occupied between 1100-1225 A.D.

In 1968, human remains representing nine individuals were recovered from site LA 66407 near Los Rancho de Taos during legally authorized excavations conducted by U.S. Forest Service personnel. No known individuals were identified. The five associated funerary objects include pottery sherds.

Based on material culture, architecture, and site organization, site LA 66407 has been identified as an Anasazi pithouse occupied between 1150-1350 AD.

Based on the above mentioned information, officials of the United States Forest Service have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of 13 individuals of Native American ancestry. Officials of the United States Forest Service have also determined that, pursuant to 43 CFR 10.2 (d)(2), the six objects listed above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the United States Forest Service have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity which can be reasonably traced between these Native American human remains and associated funerary objects and the Pueblo of Taos and the Pueblo of Picuris.

This notice has been sent to officials of the Navajo Nation, the Pueblo of Taos, and the Pueblo of Picuris. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains and associated funerary objects should contact Dr. Frank E. Wozniak, NAGPRA
